➢ Aims And Objectives Of Fashion Designing

- Created designs for clothing and accessories for men, women and children.
- Researched design and color trends and predictions for each season.
- Researched and compared prices and products.
- Designed all graphics for screen-printing and embroidery for clothing and for promotional materials and accessories.
- Reviewed and critiqued samples from manufacturers.

➢ IMPORTANCE OF FASHION DESIGNING

Fashion designing is an art. It is about creating what is there as 2D into 3D. When we use the word designing, it is generally about crafting something the way we intend it to become. So, clothing was seen as a huge potential and scope to use the artistic and visual imagination and create something out-of-the-box. Since textile was something that India is flourishing with to the point that even now, every state, every district has their own signature dressing style and a separate culture attached to it. This was the inspiration for designing the garments according to their culture, location, gender, social class and many other factors. Initially the early stages of fashion were seen in the egypt and roman empire era. This was the first time clothing was different for the upper class and lower class. From the fabric, to colour and silhouettes, there was this differentiation in the way different people belonging to different social classes dressed in their own ways.

AIMS AND OBJECTIVES OF YOGA EDUCATION

Yoga education can supplement school and university education. It can prepare the students physically and mentally for the integration of their physical, mental and spiritual faculties so that the students can become healthier, saner and more integrated members of the society and of the nation.

Yoga education helps in self discipline and sel-control, leading to immense amount of awareness, concentration and higher level of consciousness. Briefly the aims and objectives of Yoga education are:

1) To enable the student to have good health.

2) To practice mental hygiene.

3) To possess emotional stability.

4) To integrate moral values.

5) To attain higher level of consciousness.

➢IMPORTANCE OF YOGA

Yoga is a way of life and if we incorporate yoga in our life slowly and make in an integral part of our life, we would be in a peaceful state in our everyday life. We would be able to take decisions without getting clouded by our emotions. We would think and act with complete attention, focus and awareness.

Stress' is a buzzword of the modern world. And stress has become and acceptable way of life today, which is surely not at all good for our physical and mental health. Yoga seeks to replace this stress with calmness and peace. That's the importance of Yoga. Yoga opens up the blockages at our mind, body, breath and emotions level and takes us to a much higher plane of living. The yogic way of life ensures that every situation is not viewed as stress and the body is not always in the flight or fight mode. Yoga paves the way for the rejuvenation, rest and growth of our body.

At the physical level, yoga asana seeks to remove blockages and rigidity and build strength over a period of time. Asana seeks to create new body patterns which enables the body to operate at its potential best by removing all impurities.

At the breath level, pranayama seeks to extend our breath so that prana or the life force, is not dissipated and slowly converges inside our body leading to high level of positive, clear state of mind.

At the foundation of our daily life are the principles of Yama and Niyama which enable us to live harmoniously with others and our own selves. The principles of nonviolence, truth, non-stealing, purity, non-greed, contentment, self-study, surrendering to a higher being all result in us having congenial relations with people around us. And this paves the way for a peaceful state of mind.

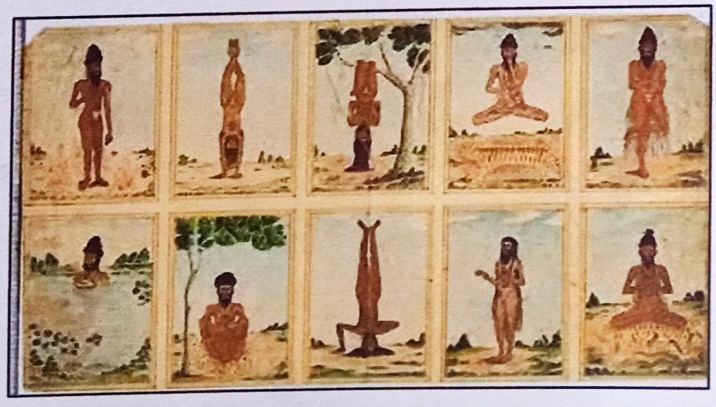

Over a period of time, the deeper practice of meditation brings in complete clarity and calmness and enables one to step back from momentary pleasures and seek a deeper truth which would bring in the lasting joy and bliss.

Yoga in our daily lives brings in greater harmony in our thoughts, deeds and actions. Yoga is all about being kind to others and to our own selves. It eliminates the very often vein of judging people harshly or unfairly. It brings down the agitation and restlessness in us and sets us on the path of a calm, meaningful and focused way of living.

HISTORY OF YOGA

Yoga's history has many places of obscurity and uncertainty due to its oral transmission of sacred texts and the secretive nature of its teachings. The early writings on yoga were transcribed on fragile palm leaves that were easily damaged, destroyed or lost. The development of yoga can be traced back to over 5,000 years ago, but some researchers think that yoga may be up to 10,000 years old old. Yoga's long rich history can be divided into four main periods of innovation, practice and development.

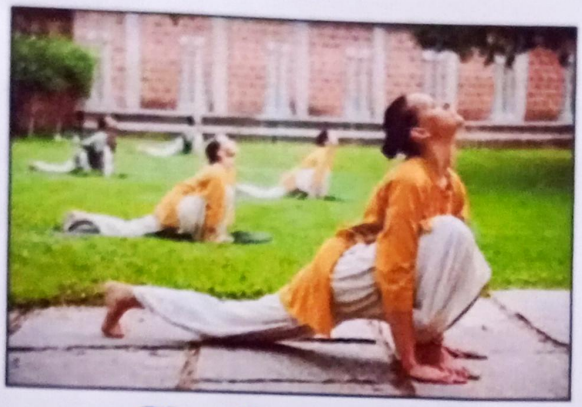

- ✓ **Pre-Classical Yoga**
  The beginnings of Yoga were developed by the Indus-Sarasvati civilization in Northern India over 5,000 years ago. The word yoga was first mentioned in the oldest sacred texts, the Rig Veda. The Vedas were a collection of texts containing songs, mantras and rituals to be used by Brahmans, the Vedic priests. Yoga was slowly refined and developed by the Brahmans and Rishis (mystic seers) who documented their practices and beliefs in the upanishads, a huge work containing over 200 scriptures. The most renowned of the Yogic scriptures is the Bhagavad-Gîtâ, composed around 500 B.C.E. The Upanishads took the idea of ritual sacrifice from the Vedas and internalized it, teaching the sacrifice of the ego through self-knowledge, action (karma yoga) and wisdom (jnana yoga).

Pre-Classical Yoga

- **Classical Yoga**

  In the pre-classical stage, yoga was a mishmash of various ideas, beliefs and techniques that often conflicted and contradicted each other. The Classical period is defined by Patanjali's Yoga-Sûtras, the first systematic presentation of yoga. Written some time in the second century, this text describes the path of RAJA YOGA, often called "classical yoga". Patanjali organized the practice of yoga into an "eight limbed path" containing the steps and stages towards obtaining Samadhi or enlightenment. Patanjali is often considered the father of yoga and his Yoga-Sûtras still strongly influence most styles of modern yoga.

Classical Yoga

- **Post-Classical Yoga**

  A few centuries after Patanjali, yoga masters created a system of practices designed to rejuvenate the body and prolong life. They rejected the teachings of the ancient Vedas and embraced the physical body as the means to achieve enlightenment. They developed Tantra Yoga, with radical techniques to cleanse the body and mind to break the knots that bind us to our physical existence. This exploration of these physical-spiritual connections and body centered practices led to the creation of what we primarily think of yoga in the West: Hatha Yoga.

➢ AIMS AND OBJECTIVES OF YOGA EDUCATION

Yoga education can supplement school and university education. It can prepare the students physically and mentally for the integration of their physical, mental and spiritual faculties so that the students can become healthier, saner and more integrated members of the society and of the nation.

Yoga education helps in self discipline and sel-control, leading to immense amount of awareness, concentration and higher level of consciousness. Briefly the aims and objectives of Yoga education are:

1) To enable the student to have good health.

2) To practice mental hygiene.

3) To possess emotional stability.

4) To integrate moral values.

5) To attain higher level of consciousness.

➢IMPORTANCE OF YOGA

Yoga is a way of life and if we incorporate yoga in our life slowly and make in an integral part of our life, we would be in a peaceful state in our everyday life. We would be able to take decisions without getting clouded by our emotions. We would think and act with complete attention, focus and awareness.

Stress' is a buzzword of the modern world. And stress has become and acceptable way of life today, which is surely not at all good for our physical and mental health. Yoga seeks to replace this stress with calmness and peace. That's the importance of Yoga. Yoga opens up the blockages at our mind, body, breath and emotions level and takes us to a much higher plane of living. The yogic way of life ensures that every situation is not viewed as stress and the body is not always in the flight or fight mode. Yoga paves the way for the rejuvenation, rest and growth of our body.

At the physical level, yoga asana seeks to remove blockages and rigidity and build strength over a period of time. Asana seeks to create new body patterns which enables the body to operate at its potential best by removing all impurities.

At the breath level, pranayama seeks to extend our breath so that prana or the life force, is not dissipated and slowly converges inside our body leading to high level of positive, clear state of mind.

At the foundation of our daily life are the principles of Yama and Niyama which enable us to live harmoniously with others and our own selves. The principles of nonviolence, truth, non-stealing, purity, non-greed, contentment, self-study, surrendering to a higher being all result in us having congenial relations with people around us. And this paves the way for a peaceful state of mind.

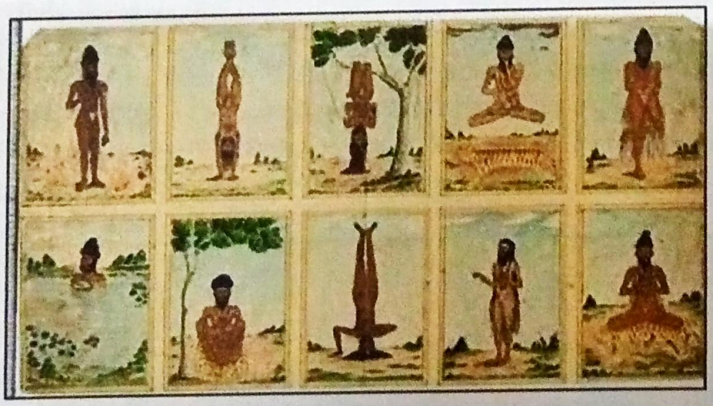

Over a period of time, the deeper practice of meditation brings in complete clarity and calmness and enables one to step back from momentary pleasures and seek a deeper truth which would bring in the lasting joy and bliss.

Yoga in our daily lives brings in greater harmony in our thoughts, deeds and actions. Yoga is all about being kind to others and to our own selves. It eliminates the very often vein of judging people harshly or unfairly. It brings down the agitation and restlessness in us and sets us on the path of a calm, meaningful and focused way of living.

HISTORY OF YOGA

Yoga's history has many places of obscurity and uncertainty due to its oral transmission of sacred texts and the secretive nature of its teachings. The early writings on yoga were transcribed on fragile palm leaves that were easily damaged, destroyed or lost. The development of yoga can be traced back to over 5,000 years ago, but some researchers think that yoga may be up to 10,000 years old old. Yoga's long rich history can be divided into four main periods of innovation, practice and development.

- ✓ **Pre-Classical Yoga**
  The beginnings of Yoga were developed by the Indus-Sarasvati civilization in Northern India over 5,000 years ago. The word yoga was first mentioned in the oldest sacred texts, the Rig Veda. The Vedas were a collection of texts containing songs, mantras and rituals to be used by Brahmans, the Vedic priests. Yoga was slowly refined and developed by the Brahmans and Rishis (mystic seers) who documented their practices and beliefs in the upanishads, a huge work containing over 200 scriptures. The most renowned of the Yogic scriptures is the Bhagavad-Gîtâ, composed around 500 B.C.E. The Upanishads took the idea of ritual sacrifice from the Vedas and internalized it, teaching the sacrifice of the ego through self-knowledge, action (karma yoga) and wisdom (jnana yoga).

Pre-Classical Yoga

✓ **Classical Yoga**

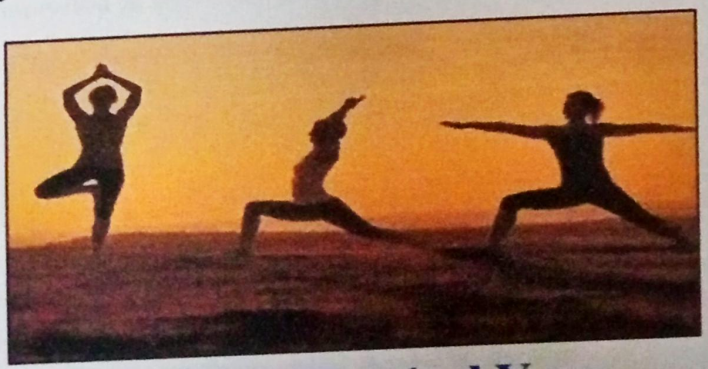

In the pre-classical stage, yoga was a mishmash of various ideas, beliefs and techniques that often conflicted and contradicted each other. The Classical period is defined by Patanjali's Yoga-Sûtras, the first systematic presentation of yoga. Written some time in the second century, this text describes the path of RAJA YOGA, often called "classical yoga". Patanjali organized the practice of yoga into an "eight limbed path" containing the steps and stages towards obtaining Samadhi or enlightenment. Patanjali is often considered the father of yoga and his Yoga-Sûtras still strongly influence most styles of modern yoga.

Classical Yoga

✓ **Post-Classical Yoga**

A few centuries after Patanjali, yoga masters created a system of practices designed to rejuvenate the body and prolong life. They rejected the teachings of the ancient Vedas and embraced the physical body as the means to achieve enlightenment. They developed Tantra Yoga, with radical techniques to cleanse the body and mind to break the knots that bind us to our physical existence. This exploration of these physical-spiritual connections and body centered practices led to the creation of what we primarily think of yoga in the West: Hatha Yoga.

➢ AIMS AND OBJECTIVES OF YOGA EDUCATION

Yoga education can supplement school and university education. It can prepare the students physically and mentally for the integration of their physical, mental and spiritual faculties so that the students can become healthier, saner and more integrated members of the society and of the nation.

Yoga education helps in self discipline and sel-control, leading to immense amount of awareness, concentration and higher level of consciousness. Briefly the aims and objectives of Yoga education are:

1) To enable the student to have good health.

2) To practice mental hygiene.

3) To possess emotional stability.

4) To integrate moral values.

5) To attain higher level of consciousness.

➢IMPORTANCE OF YOGA

Yoga is a way of life and if we incorporate yoga in our life slowly and make in an integral part of our life, we would be in a peaceful state in our everyday life. We would be able to take decisions without getting clouded by our emotions. We would think and act with complete attention, focus and awareness.

Stress' is a buzzword of the modern world. And stress has become and acceptable way of life today, which is surely not at all good for our physical and mental health. Yoga seeks to replace this stress with calmness and peace. That's the importance of Yoga. Yoga opens up the blockages at our mind, body, breath and emotions level and takes us to a much higher plane of living. The yogic way of life ensures that every situation is not viewed as stress and the body is not always in the flight or fight mode. Yoga paves the way for the rejuvenation, rest and growth of our body.

At the physical level, yoga asana seeks to remove blockages and rigidity and build strength over a period of time. Asana seeks to create new body patterns which enables the body to operate at its potential best by removing all impurities.

At the breath level, pranayama seeks to extend our breath so that prana or the life force, is not dissipated and slowly converges inside our body leading to high level of positive, clear state of mind.

At the foundation of our daily life are the principles of Yama and Niyama which enable us to live harmoniously with others and our own selves. The principles of nonviolence, truth, non-stealing, purity, non-greed, contentment, self-study, surrendering to a higher being all result in us having congenial relations with people around us. And this paves the way for a peaceful state of mind.

Over a period of time, the deeper practice of meditation brings in complete clarity and calmness and enables one to step back from momentary pleasures and seek a deeper truth which would bring in the lasting joy and bliss.

Yoga in our daily lives brings in greater harmony in our thoughts, deeds and actions. Yoga is all about being kind to others and to our own selves. It eliminates the very often vein of judging people harshly or unfairly. It brings down the agitation and restlessness in us and sets us on the path of a calm, meaningful and focused way of living.

Modi & Brahmi Course Report

Documents in Modi script are a tool for the study of history. Characteristics Information about the history of the Marathas is abundantly available in Modi script but ,there are very few scholars who read Modi script. Due to lack of research and modi script reading the history of Maratha's has been neglected. Modi script is regularly taught in Gujarat, and Dr.AaradhyaSaxena is working hard for this. Rs. 1000 to 1500 for translating a document into Modi script. The practicing script can make students interested in historical research in the classroom. Studying Modi script can make students interested in research and history. This enables students to make invaluable contributions to historical research. Hence it may be helpful for students to start Modi script courses.

➢IMPORTANCE OF YOGA

Yoga is an Indian spiritual and physical practice or discipline whose origins date back to prehistoric times. Contrary to what some may think, Yoga is not just about exercise with the main purpose of improving health and well-being, but it's also about self-realization.

The importance of Yoga in our lives cannot be underestimated. It is a science that focuses on improving not only physical health but also mental and spiritual well-being, which are the foundations of our life.

You will be surprised at how many health benefits Yoga has to offer. From offering relief from stress and weight management to improving your overall health, this ancient practice can help you live an ideal life.

• A Brief Look At Yoga

Yoga is an age-old art, which has helped millions of people all over the world to attain a better state of physical and mental health.

Today, it is used by all, mostly by those who are suffering from stress and back pain. Usually yoga is thought to be something related to the exercises of the body but yoga isn't just exercise. Yoga also makes one's mind stronger and healthier and leads him towards a better way of living. The best yoga websites will tell you about perfect poses for your body, which will help you improve your health in ways that you haven't imagined before.

The practice of Yoga is increasing throughout the globe. One of the main reasons for its popularity is that even doctors are advising patients on the worth of yoga. Yoga is being intensively studied by scientists and it is proved that yoga calms and relaxes both mind and body and uplifts the spirit. It is an exceptional discipline for getting a good mind and keeping yourself healthy.

- **Mental benefits**

Aside from the physical benefits, one of the best benefits of yoga is how it helps a person manage mental health. Most importantly, yoga helps anyone deal with stress, which is known to have devastating effects on the body and mind. According to Dr. Nevins, "Stress can reveal itself in many ways, including back or neck pain, sleeping problems, headaches, drug abuse, and an inability to concentrate". Yoga can be very effective in developing coping skills. This practice helps people to reach a more positive outlook on their life.

- **Heightened Concentration**

The improved concentration is one of the many benefits of a calm mind. The survivors of modern life know the importance of concentration because they often find themselves juggling numerous tasks. Meditation is one potent practice for sharpening the focus. In meditation, you bring your attention either to the breath, mantra, or any visual every time your mind wanders.

- **Strength & Flexibility**

The sedentary lifestyle is the begetting of many physical health problems like limited flexibility, low strength, poor posture, stiffness, and many more. The performance of yoga asanas encourages body movement in different directions, assisting in opening that reduces stiffness, increases joint mobility, and releases pent-up emotions leading to strength and flexibility.

Greater strength and flexibility are crucial for the healthy maintenance of muscles, tissues, and ligaments.

• Discipline and Mindfulness in Life

By implementing the Yamas and Niyamas written in the Yoga Sutras of Patanjali, you invite more discipline and mindfulness into your living. The five Yamas and Niyamas are the ethical codes of living a virtuous life.

To honor these ethics during the span of life means – being mindful in every action, performing acts with compassion, and living life in the present moment.

• End Words

Yoga is rightly called 'A science to live in harmony with self and the world' – it is not only for keeping our body fit but also helps us to keep our mind and soul active. The practice blends the body, mind, and soul together and enables us to be happy, peaceful, and content by transforming our attitudes, behavior, and outlook towards life. It makes us more positive, optimistic and cheerful.

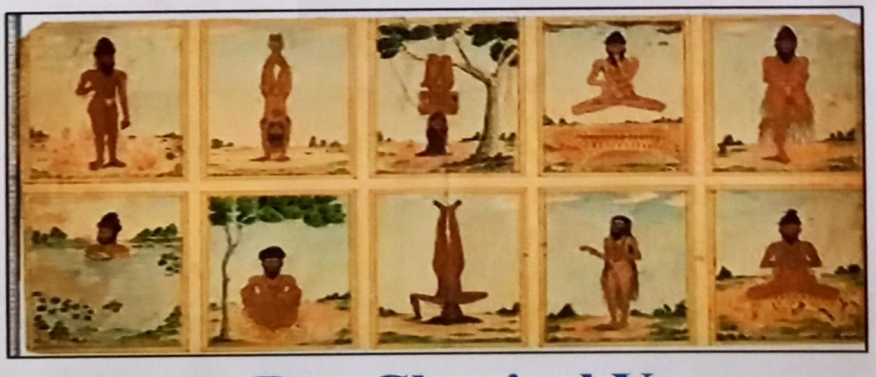

Yoga is very important to individuals and also can have a positive impact on the world. At PIES, we are focused on ensuring that you have the best Yoga Experience in Northern Virginia. We have various beginner yoga and senior yoga programs and classes at our studios in Alexandria, Virginia, please give us a call at 703-940-1948 to schedule your class.

HISTORY OF YOGA

Yoga's history has many places of obscurity and uncertainty due to its oral transmission of sacred texts and the secretive nature of its teachings. The early writings on yoga were transcribed on fragile palm leaves that were easily damaged, destroyed or lost. The development of yoga can be traced back to over 5,000 years ago, but some researchers think that yoga may be up to 10,000 years old old. Yoga's long rich history can be divided into four main periods of innovation, practice and development.

- ✓ **Pre-Classical Yoga**

  The beginnings of Yoga were developed by the Indus-Sarasvati civilization in Northern India over 5,000 years ago. The word yoga was first mentioned in the oldest sacred texts, the Rig Veda. The Vedas were a collection of texts containing songs, mantras and rituals to be used by Brahmans, the Vedic priests. Yoga was slowly refined and developed by the Brahmans and Rishis (mystic seers) who documented their practices and beliefs in the upanishads, a huge work containing over 200 scriptures. The most renowned of the Yogic scriptures is the Bhagavad-Gîtâ, composed around 500 B.C.E. The Upanishads took the idea of ritual sacrifice from the Vedas and internalized it, teaching the sacrifice of the ego through self-knowledge, action (karma yoga) and wisdom (jnana yoga).

Pre-Classical Yoga

✓ **Classical Yoga**

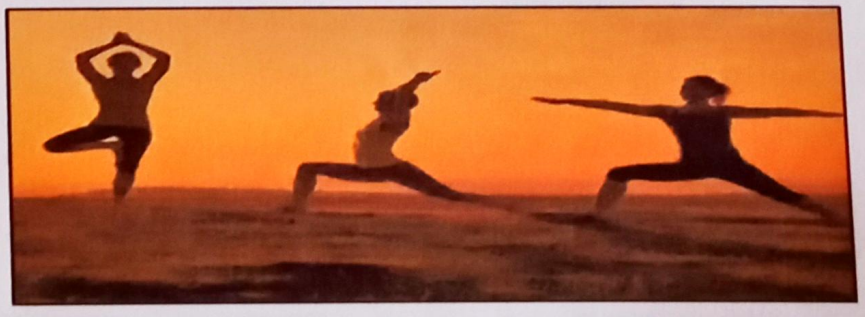

In the pre-classical stage, yoga was a mishmash of various ideas, beliefs and techniques that often conflicted and contradicted each other. The Classical period is defined by Patanjali's Yoga-Sûtras, the first systematic presentation of yoga. Written some time in the second century, this text describes the path of RAJA YOGA, often called "classical yoga". Patanjali organized the practice of yoga into an "eight limbed path" containing the steps and stages towards obtaining Samadhi or enlightenment. Patanjali is often considered the father of yoga and his Yoga-Sûtras still strongly influence most styles of modern yoga.

Classical Yoga

✓ **Post-Classical Yoga**

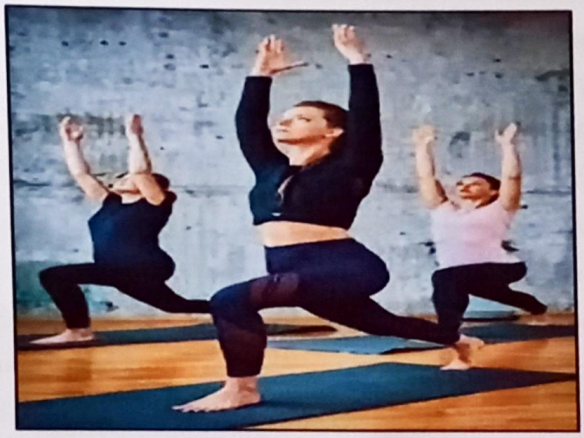

A few centuries after Patanjali, yoga masters created a system of practices designed to rejuvenate the body and prolong life. They rejected the teachings of the ancient Vedas and embraced the physical body as the means to achieve enlightenment. They developed Tantra Yoga, with radical techniques to cleanse the body and mind to break the knots that bind us to our physical existence. This exploration of these physical-spiritual connections and body centered practices led to the creation of what we primarily think of yoga in the West: Hatha Yoga.

Post-Classical Yoga

- ✓ **Modern Period**

In the late 1800s and early 1900s, yoga masters began to travel to the West, attracting attention and followers. This began at the 1893 Parliament of Religions in Chicago, when Swami Vivekananda wowed the attendees with his lectures on yoga and the universality of the world's religions. In the 1920s and 30s, Hatha Yoga was strongly promoted in India with the work of T. Krishnamacharya, Swami Sivananda and other yogis practicing Hatha Yoga. Krishnamacharya opened the first Hatha Yoga school in Mysore in 1924 and in 1936 Sivananda founded the Divine Life Society on the banks of the holy Ganges River. Krishnamacharya produced three students that would continue his legacy and increase the popularity of Hatha Yoga: B.K.S. Iyengar, T.K.V. Desikachar and Pattabhi Jois. Sivananda was a prolific author, writing over 200 books on yoga, and established nine ashrams and numerous yoga centers located around the world.
