	History Special Paper- History of Mughal India (1526 A.D. to 1707 A.D.) Paper No VIII & XIII	After the completion of this Course, students will be able to learn following:  CO-1. Analyze the impact of Mughal rule on the Indian polity and society.  CO-2. The course intends to provide and understand of the social, economic, religious bases.  CO-3. It assess the economy and religion of Mughal rule.  CO-4. Students will be able to examine social, economic, and religious condition in Medieval period. CO-5. Analyze the features of art and architecture of Mughal India.
	History Special Paper- Growth and Decline of the Maratha Power (1707 A. D. to 1818 A. D.) Paper No IX & XIV	After the completion of this Course, students will be able to learn following:  CO-1. Students will be able to analyze the Marathas policy of expansionism.  CO-2. Understand the role played by the Marathas in the eighteenth century polity.  CO-3. Identify the causes of the downfall of Maratha empire.  CO-4. Students will be able to analyze the civil administration, military administration and judicial system during Peshwa period.  CO-5. To analyze dynamics of Maratha Confederacy.

History Special Paper- History of Modern World (1857-2000 A.D.) Paper No X & XV	After the completion of this Course, students will be able to learn following:  CO-1. Students will understand the relations between the nations in the world.  CO-2. Students will study political, social, economic challenges in the Modern World.  CO-3. Analyze the streamline the role of League of the Nations and UNO.  CO-4. To understand the consequences of the World War I and World War II and Cold War regarding the present global crisis.  CO-5. To state the importance of brotherhood, peace, Cooperation and national security.
History Special Paper- Historical Documents and Places Paper NoXI & XVI	After the completion of this Course, students will be able to learn following:  CO-1. Students will be able to explain the term history and its importance.  CO-2. Identity the different types of primary and secondary sources.  CO-3. Students will be able to examine sources of History.  CO-4. Students will understand the Museum and Historical tourism.  CO-5. Analyze the work of Great historians.

#### Program Outcome: B. C. A.

Program		Program Outcome
B. C. A. (Three Years		After the completion of three years of Bachelor in Computer Application that is B. C. A. The students will be able to:
Bachelor's  Degree  Program)	PO-1:	Acquire basic knowledge of computer application, mathematical foundation and algorithm principles in the design of computer based systems.
	PO-2:	Develop problem analysis skills and knowledge and applying the

	same in real life.
PO-3:	Investigate integrated solutions using emerging technologies.
PO-4:	Apply professional ethics and cyber regulations in the realm of global technology.
PO-5:	Ability to select modern computing tools, skills, and techniques necessary for innovative software solutions.
PO-6:	Communicate Effectively with the computing community by being able to comprehend effective documentation and presentations.
PO-7:	Identify opportunities, entrepreneurship vision and use of innovative ideas to create value and wealth for the betterment of the individual and society

# Program Specific Outcome: B. C. A.

Program		Program Outcome
B. C. A. (Three Years Bachelor's		After the completion of three years of Bachelor in  Computer Application that is B. C. A. The students will be able to:
Degree Program)	PSO-1:	Integrate information technology and application of computers to business and office
	PSO-2:	Create a conductive environment in cultivating skills for thriving career and higher studies
	PSO-3:	Practical Knowledge of SPSS for doing social science research
	PSO-4:	Understanding the relevance of Date Base Management System in Business
	PSO-5:	Comprehend computer programs in the allied areas like algorithms, system software, multimedia, web design and data analytics for efficient design of computer based systems.
	PSO-6:	Development of quantitative aptitude, presentation and analytical skills of the learner

PSO-7:	Ability to work in team by strengthening group dynamics
PSO-8:	To explore technical comprehension in varied areas of
	computer application

# Course Outcome: B. C. A.

Sr. No.	Program	Name of the Course	СО	Course Outcome
1	B. C. A. I			After the completion of this Course, students will be able to learn following:
			CO-1	To impart knowledge about the structure, components and functions of a computer system.
			CO-2	To understand working of basic input and output devices.
			CO-3	To learn about the binary number representation along with its operations.
			CO-4	Familiarization with the terms like Operating System, peripheral devices, networking, multimedia, internet, etc.
			CO-5	Learn basic word processing skills with Microsoft Word, such as text input and formatting, editing, cut, copy and paste, spell check, margin and tab control, keyboard shortcuts, printing, as well as how to include some graphics such as pictures and charts.
2	with C	C. A. I Logic Development		After the completion of this Course, students will be able to learn following:
		with C Programing	CO-1	To learn advance structured and procedural programming and to improve C programming skills.
			CO-2	To understand the basic structure of a C program.
			CO-3	To gain knowledge of various programming errors.

			CO-4	To enable the students to make flowchart and design an algorithm for a given problem.
			CO-5	Understanding a functional hierarchical code organization
3	B. C. A. I	English (Communicati		After the completion of this Course, students will be able to learn following:
		on Skills)	CO-1	Acquire four basic skills: Listening, Speaking Reading and Writing
			CO-2	Use English language effectively in real life situations
			CO-3	Acquire the art of formal corresponding writing
			CO-4	Comprehend the terminologies from the discourse of computer
			CO-5	Learn presentation skills

4	B. C. A. I	A Basics of Mathematics		After the completion of this Course, students will be able to learn following:
			CO-1	Understand foundations of mathematics
			CO-2	Be able to perform basic computations in higher mathematics
			CO-3	Be able to read and understand foundation algorithms and mathematics
			CO-4	To write and understand basic proofs
			CO-5	Develop problem solving skills
5	B. C. A. I	Advanced Programming		After the completion of this Course, students will be able to learn following:
		in C	CO-1	Ability to design and develop Computer programs, analyzes, and interprets the concept of pointers, declarations, initialization, operations on pointers and their usage.

CO-2 Utilize the best of the inbuilt fuvarious input and output opera  CO-3 Implement problem solving ski	
concept of the programming la	ills using pointer
concept of the programming ta	anguages.
CO-4 Work efficiently with files using	g the
programming languages.	
CO-5 To be able to develop C program	ms on compiler.
6 B. C. A. I Basics of Web After the completion of this Co	ourse, students will
Programming be able to learn following:	
CO-1 To understand the concept of H	ITML to develop
their web development skill.	
CO-2 Create and use pivot tables and	d pivot charts.
CO-3 Understanding the use of HTM	IL tags.
CO-4 Designing and Developing web	b pages using HTML.
CO-5 Ability to Animate and Design	the document.
7 B. C. A. I Software After the completion of this Co	ourse, students will
Engineering be able to learn following:	
CO- To inculcate in students differen	nt concepts of
software engineering principle	es .
CO- To develop the skills necessary	to design, develop
and execute software projects.	
CO-· Select and implement different	software
development process models	

			CO-• 4	Develop some basic level of software architecture/design
			CO-• 5	Implement software development efficiently and effectively
8	B. C. A. I	A Digital Electronics		After the completion of this Course, students will be able to learn following:

			CO-1	To acquire the basic knowledge of digital logic levels and application of knowledge to understand digital electronics circuits.
			CO-2	To prepare students to perform the analysis and design of various digital electronic circuits.
			CO-3	Have a thorough understanding of the fundamental concepts and techniques used in digital electronics.
			CO-4	To understand and examine the structure of various number systems and its application in digital design.
			CO-5	Ability to identify basic requirements for a design application and propose a cost-effective solution.
9	B. C. A. I	Statistical Method		After the completion of this Course, students will be able to learn following:
			CO-1	To impart knowledge of various statistical techniques.
			CO-2	Ability to apply various statistical techniques such as Measures of Central Tendency and Dispersion.
			CO-3	Understanding of relationship between variables using the method of Correlation and Trend Fit Analysis.
			CO-4	To develop students' understanding through laboratory activities to solve problems related to above stated concepts.
			CO-5	Skill to execute programs of various  Numerical Methods and Statistical  Techniques for solving mathematical problems.
	B. C. A. II	Data structures using 'C'		After the completion of this Course, students will be able to learn following:

CO-1	Write programs that use arrays, records, linked structures, stacks, queues, trees, and graphs
CO-2	Describe common applications for arrays, records, linked structures, stacks, queues and trees.
CO-3	Demonstrate different methods for traversing trees

		CO-4	Compare alternative implementations of data structures with respect to performance.
		CO-5	Discuss the computational efficiency of the principal algorithms for sorting and searching.
B. C. A. II	Networking & Data		After the completion of this Course, students will be able to learn following:
	communication	CO-1	Explain the role of protocols in networking
		CO-2	Administer and maintain a computer network.
		CO-3	Demonstrate basic understanding of network principles
		CO-4	Have a good understanding of the OSI Reference Model and in particular have a good knowledge of Layers 1-3.
		CO-5	Demonstrate understanding of how computers communicate
B. C. A. II	DBMS with Oracle		After the completion of this Course, students will be able to learn following:
		CO-1	Introduce basic concepts and major techniques in DBMS implementations.
		CO-2	Introduce research development ability in databases through technical survey and reading
		CO-3	Explain in detail DBMS architecture.
		CO-•	Explain the principles of concurrency control

		CO-• 5	Explain the principles of recovery management.
B. C. A. II	OOP with C++		After the completion of this Course, students will be able to learn following:
		CO-1	Familiarization with a widely used programming concept – Object Oriented Programming.
		CO-2	Develop logical thinking.
		CO-3	Skill to write codes in C++ by applying concept of OOP, such as Objects, Classes, Constructors, Inheritance etc., to solve mathematical or real-world problems.
		CO-4	Ability to isolate and fix common errors in C++programs
B. C. A. II	Operations Research		After the completion of this Course, students will be able to learn following:
		CO-1	Do research in the emerging areas of cryptography and network security
		CO-2	Solution of LPP by using graphical method

			CO-3	Methods of obtaining initial basic feasible solution (IBFS) of Transportation Problems
			CO-4	Learn mathematical models of Assignment Problems
			CO-5	Understand Linear programing problem
	B. C. A. II	Software Testing		After the completion of this Course, students will be able to learn following:
			CO-1	Gain a broad understanding of the discipline of software Testing and Quality  Management.
			CO-• 2	Understand software test automation problems and solutions.

		CO-• 3	Comprehend the concepts related to Software Quality Attributes, Quality Planning, Software Quality Control and Software Quality Assurance.
		CO-4	Learn and demonstrate various software evaluation techniques
B. C. A. II	Python		After the completion of this Course, students will be able to learn following:
		CO-1	Understand the features python program
		CO-2	Comprehend Performing Assignment and arithmetic operations
		CO-3	Learn Precedence of operators
		CO-4	Learn functions and modules of python
		CO-5	Learn formal parameters, actual and function parameters
B. C. A. II	Operating System		After the completion of this Course, students will be able to learn following:
		CO-1	To understand the working of operating system as a resource manager.
		CO-2	To familiarize the students with Process and Memory management.
		CO-3	To describe the problem of process synchronization and its solution.
		CO-4	Ability to apply CPU scheduling algorithms to manage tasks.
		CO-5	Knowledge of methods of prevention and recovery from a system deadlock.
B. C. A. II	Advanced Web technology		After the completion of this Course, students will be able to learn following:

		CO-1	Create Format cells, rows, columns, and entire worksheets
		CO-2	Understand benefits of PHP as a server side language
		CO-3	Learn object oriented programing in PHP
		CO-4	Create and use pivot tables and pivot charts. By learning the course, the students will be able to perform documentation, to perform accounting operations, to perform presentation skills
		CO-5	Work with forms and database with MySQL
B. C. A. II	E- Governance		After the completion of this Course, students will be able to learn following:
		CO-1	Acquaint the concept of e-governance
		CO-2	Understand managing e-governance strategy and implementation
		CO-3	To lean four stages of e-governance
		CO-4	To understand performance management
B. C. A. III	Core Java		After the completion of this Course, students will be able to learn following:
		CO-• 1	Understand software design, implementation, and testing using Java
		CO-•	Understands fundamentals of basic java programming
		CO-•	Introduces object-oriented design techniques and problem solving.
		CO-4	Use an integrated development environment to write, compile, run, and test simple object-oriented Java programs
		CO-• 5	Use a version control system to track source code in a project.
B. C. A. III	Visual Programing		After the completion of this Course, students will be able to learn following:

		CO-1	To understand the concepts of windows Programming.
		CO-2	To develop applications using Visual Basic.
		CO-3	Creating dialogs, menus, windows and use Windows common dialogs
	CO-4	Developing modular, reusable Visual Basic code and forms	
		CO-5	Demonstrate knowledge of programming terminology and how applied using Visual

	B. C. A. III	Linux and		After the completion of this Course, students will
	Shell			be able to learn following:
		Programing	CO-1	Understand origin and development of linux
			CO-2	Understand Linux file System
			CO-3	Learn command, utilities and file management
			CO-4	Learn shell programing and process management
			CO-5	Learn Linux networking
	B. C. A. III	Data		After the completion of this Course, students will
		Warehouse		be able to learn following:
	and Data  Mining		CO-1	Understand features of data warehouse
		S	CO-2	Develop the skill of Data cleaning,
				integration, transformation and reduction
			CO-3	Learn APRIOIRI algorithm, Partition algorithm,
				FP growth algorithm
	B. C. A. III	Advanced Java		After the completion of this Course, students will
				be able to learn following:
			CO-1	Discuss the computational efficiency of the
				principal algorithms for sorting and searching.
			CO-2	Learn GGI, Servlet, API, session tracking mechanism
			CO-3	Comprehend advances of JSP

		CO-4	Know the basics of hibernate
		CO-5	Grasp the knowledge of spring modules
B. C. A. III	Recent Trends in IT		After the completion of this Course, students will be able to learn following:
		CO-1	Discuss the computational efficiency of the principal algorithms for sorting and searching.
		CO-2	To understand the nanotechnology in the discourse of computer
		CO-3	Explore computer with various fields with new measures
B. C. A. III	Cryptography and Network		After the completion of this Course, students will be able to learn following:
	Security	CO-1	Understand design issues in Cryptography and Network Security
		CO-2	Understand security threats, security services and mechanisms to counter.
		CO-3	Administer and maintain a computer network.
		CO-• 4	Understand various System Security Threats – Intruders, Viruses & related Threats

		CO-• 5	Understand various protocols for network security to protect against the threats in the networks.
B. C. A. III	.Net Technology		After the completion of this Course, students will be able to:
		CO-•	Configure an asp.net application.
		CO-• 2	Develop a data driven web application.
		CO-• 3	Creating ASP.Net applications using standard .net controls.

	CO-4	Design web applications using ASP.NET
	CO-5	Create database driven ASP.NET web applications
		and web services

## **Program Outcome (PO)**

# Program Specific Outcome (PSO) Course Outcome (CO)

Programs- B. Com., B. A. and B. C. A.

**Address:** 

Raviwar Peth, Rajendra Chowk, Solapur-413005 Maharashtra, India Email- arburla@gmail.com Website- arburla.org

#### Program Outcome: B. Com.

Our College is affiliated to Punyashlok Ahilyadevi Holkar Solapur University, Solapur. Board of Studies of the university design the Program Outcome. The college rigorously follow the Program outcome designed by the university.

Program	Program Outcome
B. Com. (Three Years Bachelor's	PO-1-After completing three years for Bachelors in Commerce (B.Com) program, students would gain a thorough grounding in the fundamentals of Accountancy.
Degree Program)	PO-2 - The commerce and Accountancy focused curriculum offers number of specializations and practical exposures which would equip the student to face the modern-day challenges in commerce and business.
	PO-3-The all-inclusive outlook of the course offer a number of value based and job oriented courses ensures that students are trained into up-to-date. In advanced accounting courses beyond the introductory level, affective development will also progress to the valuing and organization levels.
	PO-4-The primary goal of accounting education is to produce competent and ethical professional accountants capable of making a positive contribution over their lifetimes to the profession and society in which they work.

#### Program Specific Outcome: B. Com.

Program	Program Specific Outcome
B. Com. (Three Years Bachelor's Degree	PSO – 1: Students will be able to demonstrate progressive learning of various tax issues and tax forms related to individuals. Students will be able to demonstrate knowledge in setting up a computerized set of accounting books
Program)	PSO – 2: Students will demonstrate progressive affective domain development of values, the role of accounting in society and business.
	PSO – 3: Students will learn relevant financial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.

PSO – 4: Students will learn relevant managerial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.
PSO – 5: Learners will gain thorough systematic and subject skills within various disciplines of commerce, business, accounting, economics, finance, auditing and marketing.
PSO-6: Learners will be able to prove proficiency with the ability to engage in competitive exams like CA, CS, ICWA and other courses.
PSO – 7: Learners will involve in various co-curricular activities to demonstrate relevancy of foundational and theoretical knowledge of their academic major and to gain practical exposure.
PSO – 8: Learners can also acquire practical skills to work as tax consultant, audit assistant and other financial supporting services
PSO - 9: Learners will be able to do higher education and advance research in the field of commerce and finance.

#### Course Outcome: B. Com.

Sr. No.	Name of the Course	Course Outcome
1	B. Com. I	At the end of the course students will:
	English Compulsory	CO-1. Acquaint with four skills: Listening, Speaking, Reading and Writing
		CO-2. Expand their vocabulary after reading the prescribed
		texts. CO-3. Comprehend the meaning of symbolic and
		creative language used in the poems.
		CO-4. Be aware of the correct usage of English grammar
		CO-5. Become familiar with selected literary forms, develop
		and strengthen their imaginative ability and the ability to
		analyze different literary forms

2	B. Com. I	On successful completion of this course learners will be able
	Financial Accounting	to: CO-1. Draw from financial information to construct a debit/credit transaction.  CO-2. Identify and describe terms associated with financial
		accounting.  CO-3. Demonstrate knowledge of the business accounting cycle for the corporate form of business.
3	B. Com. I Business Economics	At the end of this course:  CO-1. Students can apply the knowledge of market economy and price mechanism, demand elasticity, indifference curve analysis and demand forecasting analysis in price fixing.  CO-2. Students can versed in the concepts, tools and principles in the field of business economics.  CO-3. Students can apply the knowledge of breakeven point analysis in their business.
4	B. Com. I Principles of Business Management	On completion of this course, the student will be able to: CO-1. Understand the concepts related to Business. CO-2. Understand the four management functions of planning, organizing, leading and controlling. CO-3. Analyze effective application of knowledge to diagnose and solve organizational problems and develop optimal managerial decisions. CO-4. Understand the complexities associated with management of human resources in the organization integrate the learning in handling these complexities.

CO-5. Demonstrate the ability to directing leadership and communicate effectively.  CO-6. Demonstrate the roles, skills, and functions of management.  The students, ongoing through the course, will implement management principles successfully to make the enterprise to achieve its predetermined goals and objectives in best possible manner.
manner.

5	B. Com. I Principles of Marketing	On completion of this course, the students will be able to learn following things:  CO-1. Students will demonstrate strong conceptual knowledge in the functional area of marketing management.  CO-2. Students will demonstrate effective understanding of relevant functional areas of marketing management and its application.  CO-3. Students will demonstrate analytical skills in identification and resolution of problems pertaining to marketing management.
6	B. Com. I Insurance	On completion of this course, the students will be able to learn following things:  CO-1. Students will be aware about Technical matters of claim settlement  CO-2. Students will be capable to understand the insurance practices and its policy  CO-3. Recognize and act within the rules of professional conduct CO-4. Identify the client's reasonable expectations as to quality and timeliness of service.  CO-5. Reflect on their learning and identify learning needs.
7	B. Com. II Fundamental of Corporate Accounting	On completion of this course, the students will be able to learn following things:  CO-1. Gain expert accounting knowledge & skills applicable to Corporate Accounting.  CO-2. Gain the Accounting Standards issued by The Institute of Chartered Accountants of India.  CO-3. Enhance knowledge about various Accounting standards and its importance while preparing financial statement. CO-4. Develop students' knowledge and skill about issue and forfeiture of shares & debentures, valuation of shares, company final account and liquidation.

8	B. Com. II  Money and  Financial System	On completion of this course, the students will be able to learn following things:  CO 1: To understand the roles and functions of Financial market. CO 2: To understand the principles of lending.  CO 3: To know how to manage risk in banks  CO 4: To understand the importance of ethics in banking and financial institutions.  CO 5: To apply ethics at workplace
9	B. Com. II Fundamental of Entrepreneurship	On completion of this course, the students will be able to learn following things:  CO-1. To create awareness about entrepreneurship  CO-2. To develop entrepreneurial skills among students CO-3. To make aware of small scale business  CO-4. To introduce importance of Self Help Groups  CO-5. To empower students with women entrepreneurship
10	B. Com. II Business Statistics	On completion of this course, the students will be able to learn following things:  CO-1. To introduce students with basic Statistical concepts  CO-2. To inculcate an analytical approach towards Statistical concepts.  CO-3. To enlighten the student abilities to apply the statistical concepts to real life problems in Commerce, Economics, Management and Social sciences.  CO-4. To understand trade cycle in business.
11	B. Com. II Business Economics	On completion of this course, the students will be able to learn following things:  CO-1. Students can apply the knowledge of market economy and price mechanism, demand elasticity, indifference curve analysis and demand forecasting analysis in price fixing.  CO-2. Students can versed in the concepts, tools and principles in the field of business economics.  CO-3. Students can apply the knowledge of breakeven point analysis in their business.

12	B. Com. III	On completion of this course, the students will be able to learn
	Advanced	following things:
	Accountancy - I	CO-1. To enable students to understand and prepare bank final
		account.

	2016-2017 2017-2018 2018-2019	CO-2. To help the students to acquire the conceptual and practical knowledge of the Advanced Accountancy and to learn the techniques of preparing the financial statements.  CO-3. Identify and explain the conceptual underpinnings for current advanced financial accounting and reporting issues.
13	B. Com. III Co-operative Development	On completion of this course, the students will be able to learn following things:  CO-1. To understand the cooperative movement from India  CO-2. To understand the law of cooperative organizations in India  CO-3. To understand various types of cooperative societies CO-4. To identify pros and cons of cooperative institutions.
14	B. Com. III Advanced Accountancy –II Auditing and Taxation	On completion of this course, the students will be able to learn following things:  CO-1. To provide knowledge of auditing, principles principles procedures and in accordance with current legal requirements and professional standards.  CO-2. To learn audit procedure and preparation of audit of various entities.  CO-3. To understand direct and indirect tax  CO-4. To understand the concepts like fund flow and cash flow

15	B. Com. III Modern Management Practice	On completion of this course, the students will be able to learn following things:  CO-1. The objective to make the students understand the modern management practices adopted by the business houses to withstand the global competition  CO-2. To create awareness about career opportunities in B.P.O and Event management.  CO-3. To create awareness about different modes of entering international business  CO-4. to make the students understand the modern management practices adopted by the business houses to withstand the global competition.
16	B. Com. III Business Economics	On completion of this course, the students will be able to learn following things:  CO-1. Students can apply the knowledge of market economy and price mechanism, demand elasticity, indifference curve analysis and demand forecasting analysis in price fixing.

		CO-2. Students can versed in the concepts, tools and principles in the field of business economics.  CO-3. Students can apply the knowledge of breakeven point analysis in their business.
17	B. Com. III Business Regulatory Framework	On completion of this course, the students will be able to learn following things:  CO-1. To provide an overview of basic concepts related to Industrial law  CO-2. To provide knowledge of Partnership act and LLP  Act CO-3. To understand concept of mercantile law  CO-4. To learn about contract act  CO-5. To describe the provisions of agency

### **Program Outcome: B. A.**

Program	Program Outcome
B. A.	After the completion of three years of Bachelor in Arts that is B.
(Three Years	

Bachelor's	A. The students will be able to:
Degree	PO-1: Understand diverse cultures through miscellaneous disciplines
Program)	PO-2: Demonstrate intercultural awareness and competence.
	PO-3: Recognize and appreciate the real-world context of knowledge.
	PO-4: Know global competence and local acquaintance
	PO-5: Promote active citizenship and community engagement.

## **Program Specific Outcome: B. A.**

Program	Program Specific Outcome
B. A. (Three Years Bachelor's Degree Program)	PSO-1: Students will understand the basic concepts of subjects and various disciplines of Arts and Fine Arts such as literature, language, culture, criticism, sociology, economics, history, ancient culture and history, geographical diversity, quintessence of environment, political and demography.
	PSO-2: Students will able to analyze, interpret and appreciate the language, literature, culture and diverse disciplines from Arts and Fine Arts.
	PSO-3: Students will able to engage in field projects and research projects after learning various theory of knowledge reflected in the courses from Arts.
	PSO-4: Students will be able to inculcate and acquire various skills such as Life Skills, Soft Skills, Interpersonal And Intrapersonal Skills, Negotiation Skills, Reflective, Thinking Skills, Communication Skills, Interview Skills, Listening, Reading, Writing And Speaking Skills, Professional and Practical Skills, Problem Solving Skills etc. through language, literature and culture.
	PSO-5: Learners will be able to prove proficiency with the ability to engage in competitive exams and other courses.
	PSO -6: Learners will involve in various co-curricular activities to demonstrate relevance of foundational and theoretical knowledge of their academic major and to gain practical exposure.
	PSO-7: Learners can also inculcate diverse Values and Ethics through various disciplines and interdisciplinary courses from Arts and Fine Arts.

PSO-8: Learners will be able to do higher education and advance research in the field of Arts and Fine Arts.

PSO-9: Students will understand the quintessence of Humanities Departments.

#### Course Outcome: B. A. English

Sr.	Program	Name of the Course	Course Outcome
1	B. A. I	English Compulsory	At the end of the course students will CO-1. Understand the concepts of communication. CO-2. Expand their vocabulary after reading the prescribed texts. CO-3. Attain writing, speaking, reading, & listening competence. CO-4. Be aware of the correct usage of English
			grammar CO-5. Become familiar with selected literary forms, develop and strengthen their imaginative ability and the ability to analyze different literary forms
2	B. A. I	English Optional Paper I and II Introduction to English Literature	At the end of the course students will CO-1. Study minor forms of literature such as short poems, short stories and one act plays. CO-2. Be familiar with the minor forms of the literature. CO-3. Understand nature and function of short poems. CO-4. Understand nature and function of short stories. CO-5. Able to analyze and interpret the minor forms of literature.
3	B. A. II	English Compulsory	At the end of the course students will  CO-1. Acquire language skills required for day to day and specific purpose.  CO-2. Be able to interpret and illustrate concepts of Communication, Prose and Poetry.  CO-3. Be able to analyze and interpret the text prescribed. CO-4. Develop certain life skills and strengthen strategies to develop vocabulary.

4	B. A. II	English Optional	At the end of the course the students will
		Paper- III	CO-1. Be able to familiar with major forms of
		British Literature	literature such as Drama, Novel and Poetry.
			CO-2. To be acquaint with British literature.
			CO-3. Able to understand the features of the text.
			CO-4. Able to understand nature and function of
			major forms of literature.
			CO-5. Able to analyze and interpret the literary texts.
5	B. A. II	English	By the end of the course, students will-

		Paper- IV Indian Writing in English	CO-1. Students will understand the salient features of Indian English Novel, Drama and Poetry. CO-2. Students will be able to acquaint with different literary forms practiced in India in English Language. CO-3. Students will take interest in reading of Indian English Literature. CO-4. Get acquainted with major genres/themes
			through the study of texts prescribed.  CO-5. Be familiar with Indian socio-cultural ethos as revealed through texts prescribed and try to correlate it with everyday situations.  CO-6. Be able to understand and interpret literature on their own and in further cultivate interest in study of literatures in English.
6	B. A. III	English Compulsory	By the end of the course students will CO-1. Be competent and proficient to communicate properly CO-2. Understand the social commitment and value of good communication CO-3. Be creative and will try his hands in writing from time to time CO-4. Be a good communicator

7	B. A. III	English Paper- VII & XII Introduction to Literary Criticism	By the end of the course the students will: CO-1. Understand the basics of literary criticism. CO-2. Have a critical approach to literature. CO-3. Understand the major trends in literary criticism. CO-4. Critically appreciate the poem and prose. CO-5. Develop an ability to apply the critical view to literary texts.
8	B. A. III	English Paper-VIII & XIII British Literature	By the end of the course the students will:  CO-1. Gain knowledge, stylistic strategies and diction of British literature.  CO-2. Be able to explore the creativity and the human experiences in fiction, poetry and drama.  CO-4. Be able to cultivate aesthetic and ethical values in life through literary texts.  CO-5. Gain knowledge of major trends and traditions of British literature.
9	B. A. III	English	By the end of the course the students will:

		Paper- IX & XIV Indian Writing in English	CO-1. Understand gradual development of Indian English literature from mid-twentieth century to post 2000 period. CO-2. Get acquainted with major genres/themes through the study of texts prescribed. CO-3. Get familiar with Indian socio-cultural ethos as revealed through texts prescribed and try to correlate it with everyday situations. CO-4. Be able to understand and interpret literature on their own and in further cultivate interest in study of literatures in English.
10	B. A. III	English Paper- X & XV Literatures in English	By the end the course, the students will: CO-1. Understand Afro-American fiction CO-2. Understand features of Postcolonial Fiction CO-3. Be able to respond critically to world literatures in English CO-4. Get acquainted with cultures across the world through literature

11	B. A. III	English	By the end of the course students will:
		Paper- XI & XVI	CO-1. Understand various concepts in linguists.
		Introduction to the Structure and Function of Modern English	CO-2. Get acquainted with various branches of linguistics. CO-3. To understand the basic and derived structures of English CO-4. To understand nature and function varieties of English

#### Course Outcome: B. A. Marathi

Sr. No.	Program	Name of the Course	Course Outcome
1	B. A. I	Marathi Compulsory	CO-1. To enrich the awareness and interest of Marathi language and literature in the students.  CO-2. To develop the ability of students to use Marathi language competently.  CO-3. To introduce writers of Marathi language and their literary treatises.  CO-4. To create awareness among the students about their mother tongue, human values and national unity.  CO-5. Preparing for university exams and various competitive exams by developing personality in students.  CO-6. To develop skills of linguistic solutions in the field of information technology in students.)  CO-7. To develop essay writing skills in students.
2	B. A. I	Marathi Optional Paper- Pratibha Rang Paper No. I	CO-1.To enrich the awareness of Marathi language and literature among the students.  CO-2.To introduce diverse literary genres and streams to the students.

			CO-3.Explain to the students the concept, form and tradition of literary type of <i>Story</i> .  CO-4.Explain to the students the storytellers in the course and the meaning and expression of their stories.  CO-5.Explain the meaning and expression of poets and their poems to the students.  CO-6.To develop speech skills in students.  CO-7.To develop skills and application of office correspondence in students.
3	B. A. II	Marathi Optional Paper- SEM- III Paper No. III and V	CO-1. Introducing this literary form of poetry.  CO-2. Understanding the types, elements and movements of poetry  CO-3. To understand the connection between images, symbols, etc. in a poem.  CO-4. To develop poetic taste and poetry appreciation skills.
	B. A. II	Marathi Optional	CO-1. Tracking Marathi fiction CO-2.Explaining the elements of Marathi story CO-3.To memorize the details of language, folk culture, history etc. through Marathi story

B. A. II	Marathi Optional Paper- Paper No.	CO-1.Notice the uniqueness of the literary genre of novel.  CO-2. Underlining the importance of the author in the production of the novel.  CO-4. Understand the meaning and experience of the novel.  CO-5.Convincing students of different elements of
		CO-4. Understand the meaning and experience of the novel.
		language style.  CO-6. Explain the program to the students.

B. A. II	Marathi Optional Paper- Paper No.	CO-1. Learning the definition, concept and key elements of autobiography CO-2. To study the overall course of the autobiography, its tradition and development. CO-3. To study the main elements of personality.
B. A. III	Marathi Special Paper- Paper No VII & XII	CO-1. Understanding the nature of literature.  CO-2. Introducing the various purposes of literature.  CO-3. Understanding the process of literary creation.  CO-4. Enhancing literary taste.  CO-5. Created a love for literature among the students.

B. A. III	Marathi Special	CO-1. Explain the nature and importance of
	Paper-	language in human life.
	Paper No VIII & XIII	CO-2. To develop linguistic scientific
		approach in students.
		CO-3 Introducing linguistic communication.
		CO-4. Introduce students to historical, descriptive,
		comparative study methods.
		CO-5.Explain the nature of grammar and
		transformation of Marathi language.

B. A. III	Marathi Special	CO-1.Introducing the history of medieval Marathi
	Paper-	literature.
	Paper No IX &	CO-2. To study the nature and features of
	XIV	literature of this period.
	TH V	CO-3.Unraveling the cultural background of
		medieval literature.
		CO-4 Explain the connection between major schools
		and literary creations of the medieval period.
		CO-5.Explain the type of composition and
		language of the medieval period.

B. A. III	Marathi Special Paper- मराठी Paper No X & XV	CO-1. To introduce the applications of Marathi language in various fields of life.  CO-2. Explain the nature and purpose of letter writing.  CO-3. To make students aware of linguistic arrangement in the field of Advertising,  Newspapers, Radio and Television.  CO-4. Explain the importance, nature and scope of Book Review and Supporting students in actual writing of Book Review in Magazines, Periodicals and Newspapers.  CO-5. Creating the ability to make linguistic applications in creation.
B. A. III	Marathi Special Paper- Paper NoXI & XVI	CO-1. Explain diverse streams and creations of modern Marathi literature.  CO-2. Explain the concept, inspiration, nature and features of rural and Dalit literature.  CO-3. Explain the origin and development of Rural and Dalit literature.  CO-4 Explaining the content of the poems in the literary works by telling the nature of Rural Poetry

	B. A. III	CO-5. Explaining the meaning, sociality, ideology,
		language of the literary work appointed by telling the
		nature of Dalit story.
		CO-6.Explain the origins and development of
		feminist and Muslim literature and its meaning,
		socialization, events, personality, language, ideology
		and struggle.
1		

#### Course Outcome: B. A. Hindi

Sr.	Program	Name of the Course	Course Outcome
No.			
1	B. A. I	Hindi Compulsory	CO-1. To introduce students to Hindi prose writers
		सत्र- I and II	and poets.
		(पाठ्यपुस्तक- सावित्य	CO-2.To develop interest in Hindi literature among
		सुरवभ)	students
			CO-3.To promote the thinking ability and imagination
			of the students.
			CO-4.To introduce students to administrative
			terminology, commercial terminology, terminology
			related to
			designation.
			CO-5.To make students aware of skill development.
2	B. A. I	Hindi Optional	CO-1. To introduce students to Hindi prose writers
		सत्र- I and II	and poets.
		पाठ्यपुस्तक-	CO-2. To develop interest in Hindi literature among
		सावित्य रत्न प्रश्नपत्र	students
		क्र. (Paper No.) I and	CO-3. To develop a sense of love and social
		II	commitment towards the nation in the students.
			CO-4.To make students aware of the method of
			sentence perfection from the point of view of gender,
			word.
			CO-5.To familiarize students with various idioms,
			proverbs of Hindi language.

			CO-6. To familiarize students with Hindi numerals to be written in Devanagari script.  CO-7. To make students aware of skill development.
3	B. A. II	Hindi Optional Paper- सत्र- III and IV प्रश्नपत्र क्र. (Paper No.)- III and V	CO-1. To make students aware of modern Hindi novel genre.  CO-2. Getting acquainted with the contemporary environment and realities of life.  CO-3. To develop a sense of modernity and attitude towards new values.  CO-4.To develop an interest and critical attitude towards storytelling.  CO-5. To acquaint the students with the vocabulary related to synonyms, antonyms, multiple meanings, words for phrases, idioms, proverbs etc.  CO-6.To develop linguistic competence of the students
4	B. A. II	Hindi Optional Paper- काव्य और व्याकरि सत्र- III and IV प्रश्नपत्र क्र. (Paper No.)- IV and VI	CO-1.To know about the social, religious and cultural situation and environment of Bhaktikal and Ritikaal.  CO-2. To study ancient and medieval culture

			in devotional poetry.)  CO-3. Keeping the feeling of love under control through ritual poetry.  CO-4. To develop linguistic competence of the students  CO-5.Keeping the background of the modern period of Hindi literature in front.  CO-6. Keeping nature, human suffering, sensitivity in front through shadowism and progressivism  CO-7. Showing human nature along with social and economic conditions after independence
5	B. A. III	Hindi Special Paper- ववशेष लेक्तखका विांदी (कृ ष्णा सोबती) Paper No VII & XII	CO-1 To introduce the Special Author.)  CO-2.To determine the literary position of the writer.  CO-3. To familiarize yourself with the author's literature.  CO-4. To introduce the author's ideology.  CO-5. To conduct a careful critical study of the prescribed texts of the author
6	B. A. III	Hindi Special Semester- V Paper- काट्यशास्त्र Paper No VIII	CO-1.To understand the process of literary creation.

			CO-2. To know the difference between literature
			and poetry.
			CO-3. Introducing new genres of literature.
			CO-4. To explain the elements of prose and poetry.
			CO-5. To understand the power of words.
			CO-6. To convey the importance of
			ornamental words
7	B. A. III	Hindi Special	CO-1. To explain the tools of literature to
	2,11,111	Semester- VI	students
		Paper- आलोचा	
		Paper No XIII	CO-2.understanding the process of Rasa
		raper ivo. Aim	Theory
			CO-3.Recognizing the value and merits of
			literature.
			CO-4. To understand the method of criticism and
			different discussions of different works through
			criticism.
			CO-5.To introduce different Verses
8		Hindi Special	CO-1.Introducing the philosophical retrospective of
		Semester- V	Hindi literature.
		Paper- आवदकाली	
		•	CO-2. An introductory study of the history of Hindi
		और मध्यकाली विांदी	literature.
		सावित्य (सवांत १०५० 、	CO-3.Ancient and medieval classics of Hindi
		से१९०० तक) Paper	literature and general introduction of creators.
		No IX	CO-4 To study the chronological
			development of the history of Hindi literature.

9	Hindi Special Semester- VI Paper- आधुविक विांदी सावित्य का इवतास (सि १९०० से२०१० तक) Paper No	CO-1. Introducing the Philosophical Backdrop of Modern Hindi Literature.  CO-2. To conduct an introductory study of the history of modern Hindi literature.  CO-3. General introduction to the creators of modern Hindi literature.  CO-4.To study the development of various issues and legislations according to the history of modern Hindi literature.
10	Hindi Special Semester-V Paper- प्रयोजिम्लक विांदी Paper No X	CO-1.To acquaint students with the nature and development of Functional Hindi.  CO-2. To acquaint the students with the increasing use and possibilities of Hindi in modern mass media.  CO-3.To develop correspondence related ability by arousing interest in the use of Hindi.  CO-4. To make students aware of official and correspondence.  CO-5. To make students aware of various uses of Hindi for purpose.  CO-6.To develop employable skills through Functional Hindi.

11	Hindi Special Semester-VI Paper- व्यावािरस्क विादी Paper No XV	CO-1.To know the nature and importance of translation.  CO-2.Introducing the world and practice of advertising  CO-3. To Familiarize the students with the nature of translation and advertising and to develop their writing skills.  CO-4.Acquainting students with commercial correspondence.  CO-5. To develop employable skills through Functional Hindi.
12	Hindi Special Semester-V & VI Paper- भाषाववज्ञा Paper NoXI & XVI	CO-1. General introduction to Hindi language.  CO-2. To introduce different forms of language.  CO-3. To introduce sound systems of Hindi Language.  CO-4. To awaken the correctness of pronunciation.  CO-5 To awaken with word and meaning.

## **Course Outcome: B. A. History**

Sr.	Program	Name of the Course	Course Outcome
No.			
1	B. A. I	History	After the completion of this Course, students will
		Semester- I and II	be able to learn following:
		Paper- I and II	CO-1. To understand the quintessential importance of
		Title- Chhatrapati	King Shivaji
		Shivaji Maharaj and	CO-2. To learn Shivaji's contribution to Indian
		His Times (1600-1707	society CO-3. To understand Shivaji's Political
		A.D.)	Contribution CO-4. To learn war strategies of
			Shivaji

2	B. A. II	History Optional Semester- III and IV Paper- ID Title- History of Social Reforms in Maharashtra	After the completion of this Course, students will be able to learn following:  CO-1. To understand the interdisciplinary relevance of History.  CO-2. To have a thorough knowledge of the radiation of Reforms in Maharashtra.  CO-3. To trace the books of Progressive thoughts in Maharashtra public life.  CO-4. To study the key social reformers their thoughts and contribution and its impact in history of Maharashtra in Specific.
3	B. A. II	History Optional Semester- III and IV Title- History of Modern Europe (1750 – 1871 A.D.) Paper No. III and V	After the completion of this Course, students will be able to learn following:  CO-1. To understand the scope of the history of Modern Europe.  CO-2. To interpret diverse revolutions and movements in the history of Modern Europe.  CO-3. To interpret the rise and decline of various realms and emperors.  CO-4. To look into history with different angle of perception.
	B. A. II	History Optional Semester- IV Title- History of Modern India (857-1950 A.D.) Paper No. IV and VI	After the completion of this Course, students will be able to learn following:  CO-1. Students identify major issues and conflicts of Modern India.  CO-2. Students analyze the causes and conflicts of the Issues related to Modern India.  CO-3. Student able to examine social, economic and religious condition in Modern Period.
	Ī		CO 4 Students will able to avaning rise

CO-4. Students will able to examine rise
and development of Nationalism.
CO-5. This course will help the students to
understand the major events of India's freedom
struggle, its legacy and its contribution to the

		making of modern India.
B. A. III	History Special Paper- History of Ancient India (Pre-historic Age to 650 A. D.) Paper No VII & XII	After the completion of this Course, students will be able to learn following:  CO-1. Students will be able to examine institutional basis of Ancient India.  CO-2. Identify the rulers and their administration.  CO-3. Evaluate the legacy of Buddhism and Jainism CO-4. Analyze the features of art and architecture of Ancient India.  CO-5. Students will be able to explain heritage through cultural aspects of Ancient India.
	History Special Paper- History of Mughal India (1526 A.D. to 1707 A.D.) Paper No VIII & XIII	After the completion of this Course, students will be able to learn following:  CO-1. Analyze the impact of Mughal rule on the Indian polity and society.  CO-2. The course intends to provide and understand of the social, economic, religious bases.  CO-3. It assess the economy and religion of Mughal rule.  CO-4. Students will be able to examine social, economic, and religious condition in Medieval period. CO-5. Analyze the features of art and architecture of Mughal India.
	History Special Paper- Growth and Decline of the Maratha Power (1707 A. D. to 1818 A. D.) Paper No IX & XIV	After the completion of this Course, students will be able to learn following:  CO-1. Students will be able to analyze the Marathas policy of expansionism.  CO-2. Understand the role played by the Marathas in the eighteenth century polity.  CO-3. Identify the causes of the downfall of Maratha empire.  CO-4. Students will be able to analyze the civil administration, military administration and judicial system during Peshwa period.  CO-5. To analyze dynamics of Maratha Confederacy.

History Special Paper- History of Modern World (1857-2000 A.D.) Paper No X & XV	After the completion of this Course, students will be able to learn following:  CO-1. Students will understand the relations between the nations in the world.  CO-2. Students will study political, social, economic challenges in the Modern World.  CO-3. Analyze the streamline the role of League of the Nations and UNO.  CO-4. To understand the consequences of the World War I and World War II and Cold War regarding the present global crisis.  CO-5. To state the importance of brotherhood, peace, Cooperation and national security.
History Special Paper- Historical Documents and Places Paper NoXI & XVI	After the completion of this Course, students will be able to learn following:  CO-1. Students will be able to explain the term history and its importance.  CO-2. Identity the different types of primary and secondary sources.  CO-3. Students will be able to examine sources of History.  CO-4. Students will understand the Museum and Historical tourism.  CO-5. Analyze the work of Great historians.

#### **Program Outcome: B. C. A.**

Program		Program Outcome	
B. C. A. (Three Years		After the completion of three years of Bachelor in Computer Application that is B. C. A. The students will be able to:	
Bachelor's  Degree  Program)	PO-1:	Acquire basic knowledge of computer application, mathematical foundation and algorithm principles in the design of computer based systems.	
	PO-2:	Develop problem analysis skills and knowledge and applying the	

	same in real life.
PO-3:	Investigate integrated solutions using emerging technologies.
PO-4:	Apply professional ethics and cyber regulations in the realm of global technology.
PO-5:	Ability to select modern computing tools, skills, and techniques necessary for innovative software solutions.
PO-6:	Communicate Effectively with the computing community by being able to comprehend effective documentation and presentations.
PO-7:	Identify opportunities, entrepreneurship vision and use of innovative ideas to create value and wealth for the betterment of the individual and society

## Program Specific Outcome: B. C. A.

Program		Program Outcome
B. C. A. (Three Years Bachelor's		After the completion of three years of Bachelor in  Computer Application that is B. C. A. The students will be able to:
Degree Program)	PSO-1:	Integrate information technology and application of computers to business and office
	PSO-2:	Create a conductive environment in cultivating skills for thriving career and higher studies
PSO-3:		Practical Knowledge of SPSS for doing social science research
PSO-4:		Understanding the relevance of Date Base Management System in Business
	PSO-5:	Comprehend computer programs in the allied areas like algorithms, system software, multimedia, web design and data analytics for efficient design of computer based systems.
	PSO-6:	Development of quantitative aptitude, presentation and analytical skills of the learner

PSO-7: Ability to work in team by strengthening		Ability to work in team by strengthening group dynamics
	PSO-8: To explore technical comprehension in varied areas of	
		computer application

## Course Outcome: B. C. A.

Sr. No.	Program	Name of the Course	СО	Course Outcome
1	B. C. A. I	Fundamentals of computer		After the completion of this Course, students will be able to learn following:
			CO-1	To impart knowledge about the structure, components and functions of a computer system.
			CO-2	To understand working of basic input and output devices.
			CO-3	To learn about the binary number representation along with its operations.
			CO-4	Familiarization with the terms like Operating System, peripheral devices, networking, multimedia, internet, etc.
			CO-5	Learn basic word processing skills with Microsoft Word, such as text input and formatting, editing, cut, copy and paste, spell check, margin and tab control, keyboard shortcuts, printing, as well as how to include some graphics such as pictures and charts.
2	B. C. A. I	Logic Development		After the completion of this Course, students will be able to learn following:
		with C Programing	CO-1	To learn advance structured and procedural programming and to improve C programming skills.
			CO-2	To understand the basic structure of a C program.
			CO-3	To gain knowledge of various programming errors.

		CO-4	To enable the students to make flowchart and design an algorithm for a given problem.	
			CO-5	Understanding a functional hierarchical code organization
3	B. C. A. I	English (Communicati		After the completion of this Course, students will be able to learn following:
	on Skills)	CO-1	Acquire four basic skills: Listening, Speaking Reading and Writing	
			CO-2	Use English language effectively in real life situations
			CO-3	Acquire the art of formal corresponding writing
		CO-4	Comprehend the terminologies from the discourse of computer	
			CO-5	Learn presentation skills

4	B. C. A. I	A Basics of Mathematics		After the completion of this Course, students will be able to learn following:
			CO-1	Understand foundations of mathematics
			CO-2	Be able to perform basic computations in higher mathematics
			CO-3	Be able to read and understand foundation algorithms and mathematics
			CO-4	To write and understand basic proofs
			CO-5	Develop problem solving skills
5	B. C. A. I	Advanced Programming		After the completion of this Course, students will be able to learn following:
		in C	CO-1	Ability to design and develop Computer programs, analyzes, and interprets the concept of pointers, declarations, initialization, operations on pointers and their usage.

CO-2 Utilize the best of the inbuilt fur various input and output operation.  CO-3 Implement problem solving skill account of the programming leading.	
agreemt of the magazine 1	ills using pointer
concept of the programming la	anguages.
CO-4 Work efficiently with files using	g the
programming languages.	
CO-5 To be able to develop C progra	ms on compiler.
6 B. C. A. I Basics of Web After the completion of this Co	ourse, students will
Programming be able to learn following:	
CO-1 To understand the concept of H	ITML to develop
their web development skill.	
CO-2 Create and use pivot tables and	d pivot charts.
CO-3 Understanding the use of HTM	ΛL tags.
CO-4 Designing and Developing we	b pages using HTML.
CO-5 Ability to Animate and Design	the document.
7 B. C. A. I Software After the completion of this Co	ourse, students will
Engineering be able to learn following:	
CO- To inculcate in students differen	nt concepts of
software engineering principle	es
CO-· To develop the skills necessary	to design, develop
and execute software projects.	
CO-· Select and implement different	software
development process models	

			CO-• 4	Develop some basic level of software architecture/design
			CO-• 5	Implement software development efficiently and effectively
8	B. C. A. I	A Digital Electronics		After the completion of this Course, students will be able to learn following:

			CO-1	To acquire the basic knowledge of digital logic levels and application of knowledge to understand digital electronics circuits.
			CO-2	To prepare students to perform the analysis and design of various digital electronic circuits.
			CO-3	Have a thorough understanding of the fundamental concepts and techniques used in digital electronics.
			CO-4	To understand and examine the structure of various number systems and its application in digital design.
			CO-5	Ability to identify basic requirements for a design application and propose a cost-effective solution.
9	B. C. A. I	Statistical Method		After the completion of this Course, students will be able to learn following:
			CO-1	To impart knowledge of various statistical techniques.
			CO-2	Ability to apply various statistical techniques such as Measures of Central Tendency and Dispersion.
			CO-3	Understanding of relationship between variables using the method of Correlation and Trend Fit Analysis.
			CO-4	To develop students' understanding through laboratory activities to solve problems related to above stated concepts.
			CO-5	Skill to execute programs of various  Numerical Methods and Statistical  Techniques for solving mathematical problems.
	B. C. A. II	Data structures using 'C'		After the completion of this Course, students will be able to learn following:

CO-1	Write programs that use arrays, records, linked structures, stacks, queues, trees, and graphs
CO-2	Describe common applications for arrays, records, linked structures, stacks, queues and trees.
CO-3	Demonstrate different methods for traversing trees

		CO-4	Compare alternative implementations of data structures with respect to performance.
		CO-5	Discuss the computational efficiency of the principal algorithms for sorting and searching.
B. C. A. II Networking & Data		After the completion of this Course, students will be able to learn following:	
	communication	CO-1	Explain the role of protocols in networking
		CO-2	Administer and maintain a computer network.
		CO-3	Demonstrate basic understanding of network principles
	CO-4	Have a good understanding of the OSI Reference Model and in particular have a good knowledge of Layers 1-3.	
		CO-5	Demonstrate understanding of how computers communicate
B. C. A. II	DBMS with Oracle		After the completion of this Course, students will be able to learn following:
		CO-1	Introduce basic concepts and major techniques in DBMS implementations.
		CO-2	Introduce research development ability in databases through technical survey and reading
		CO-3	Explain in detail DBMS architecture.
		CO-•	Explain the principles of concurrency control

		CO-• 5	Explain the principles of recovery management.
B. C. A. II	OOP with C++		After the completion of this Course, students will be able to learn following:
		CO-1	Familiarization with a widely used programming concept – Object Oriented Programming.
		CO-2	Develop logical thinking.
		CO-3	Skill to write codes in C++ by applying concept of OOP, such as Objects, Classes, Constructors, Inheritance etc., to solve mathematical or real-world problems.
		CO-4	Ability to isolate and fix common errors in C++programs
B. C. A. II	Operations Research		After the completion of this Course, students will be able to learn following:
		CO-1	Do research in the emerging areas of cryptography and network security
		CO-2	Solution of LPP by using graphical method

			CO-3	Methods of obtaining initial basic feasible solution (IBFS) of Transportation Problems
			CO-4	Learn mathematical models of Assignment Problems
			CO-5	Understand Linear programing problem
	B. C. A. II	Software Testing		After the completion of this Course, students will be able to learn following:
			CO-1	Gain a broad understanding of the discipline of software Testing and Quality  Management.
			CO-• 2	Understand software test automation problems and solutions.

		CO-• 3	Comprehend the concepts related to Software Quality Attributes, Quality Planning, Software Quality Control and Software Quality Assurance.
		CO-4	Learn and demonstrate various software evaluation techniques
B. C. A. II	Python		After the completion of this Course, students will be able to learn following:
		CO-1	Understand the features python program
		CO-2	Comprehend Performing Assignment and arithmetic operations
		CO-3	Learn Precedence of operators
		CO-4	Learn functions and modules of python
		CO-5	Learn formal parameters, actual and function parameters
B. C. A. II	Operating System		After the completion of this Course, students will be able to learn following:
		CO-1	To understand the working of operating system as a resource manager.
		CO-2	To familiarize the students with Process and Memory management.
		CO-3	To describe the problem of process synchronization and its solution.
		CO-4	Ability to apply CPU scheduling algorithms to manage tasks.
		CO-5	Knowledge of methods of prevention and recovery from a system deadlock.
B. C. A. II	Advanced Web technology		After the completion of this Course, students will be able to learn following:

		CO-1	Create Format cells, rows, columns, and entire worksheets
		CO-2	Understand benefits of PHP as a server side language
		CO-3	Learn object oriented programing in PHP
		CO-4	Create and use pivot tables and pivot charts. By learning the course, the students will be able to perform documentation, to perform accounting operations, to perform presentation skills
		CO-5	Work with forms and database with MySQL
B. C. A. II	E- Governance		After the completion of this Course, students will be able to learn following:
		CO-1	Acquaint the concept of e-governance
		CO-2	Understand managing e-governance strategy and implementation
		CO-3	To lean four stages of e-governance
		CO-4	To understand performance management
B. C. A. III	Core Java		After the completion of this Course, students will be able to learn following:
		CO-• 1	Understand software design, implementation, and testing using Java
		CO-•	Understands fundamentals of basic java programming
		CO-•	Introduces object-oriented design techniques and problem solving.
		CO-4	Use an integrated development environment to write, compile, run, and test simple object-oriented Java programs
		CO-• 5	Use a version control system to track source code in a project.
B. C. A. III	Visual Programing		After the completion of this Course, students will be able to learn following:

			CO-1	To understand the concepts of windows Programming.
	CO-2	To develop applications using Visual Basic.		
	CO-3	Creating dialogs, menus, windows and use Windows common dialogs		
		CO-4	Developing modular, reusable Visual Basic code and forms	
		CO-5	Demonstrate knowledge of programming terminology and how applied using Visual	

	B. C. A. III	Linux and		After the completion of this Course, students will
	Shell		be able to learn following:	
		Programing	CO-1	Understand origin and development of linux
			CO-2	Understand Linux file System
			CO-3	Learn command, utilities and file management
			CO-4	Learn shell programing and process management
			CO-5	Learn Linux networking
	B. C. A. III	Data		After the completion of this Course, students will
	Warehouse and Data Mining		be able to learn following:	
		CO-1	Understand features of data warehouse	
		CO-2	Develop the skill of Data cleaning,	
				integration, transformation and reduction
			CO-3	Learn APRIOIRI algorithm, Partition algorithm,
				FP growth algorithm
	B. C. A. III	Advanced Java		After the completion of this Course, students will
				be able to learn following:
			CO-1	Discuss the computational efficiency of the
				principal algorithms for sorting and searching.
			CO-2	Learn GGI, Servlet, API, session tracking mechanism
			CO-3	Comprehend advances of JSP

		CO-4	Know the basics of hibernate
		CO-5	Grasp the knowledge of spring modules
B. C. A. III	Recent Trends in IT		After the completion of this Course, students will be able to learn following:
		CO-1	Discuss the computational efficiency of the principal algorithms for sorting and searching.
		CO-2	To understand the nanotechnology in the discourse of computer
		CO-3	Explore computer with various fields with new measures
B. C. A. III	Cryptography and Network		After the completion of this Course, students will be able to learn following:
	Security	CO-1	Understand design issues in Cryptography and Network Security
		CO-2	Understand security threats, security services and mechanisms to counter.
		CO-3	Administer and maintain a computer network.
		CO-• 4	Understand various System Security Threats – Intruders, Viruses & related Threats

		CO-• 5	Understand various protocols for network security to protect against the threats in the networks.
B. C. A. III	.Net Technology		After the completion of this Course, students will be able to:
		CO-•	Configure an asp.net application.
		CO-• 2	Develop a data driven web application.
		CO-• 3	Creating ASP.Net applications using standard .net controls.

	CO-4	Design web applications using ASP.NET
	CO-5	Create database driven ASP.NET web applications and web services
		and web services

	Cooperation and national security.
History Special	After the completion of this Course, students will be
Paper- Historical	able to learn following:
Documents and Places	CO-1. Students will be able to explain the term history
Paper NoXI & XVI	and its importance.
	CO-2. Identity the different types of primary and
	secondary sources.
	CO-3. Students will be able to examine sources of
	History.
	CO-4. Students will understand the Museum and
	Historical tourism.
	CO-5. Analyze the work of Great historians.

# Program Outcome: B. C. A.

After the completion of three years of Bachelor in Compute that is B. C. A. The students will be able to:	
PO-1: Acquire basic knowledge of computer application, mathematical foundation and algorithm principles in the design of computer systems.  PO-2: Develop problem analysis skills and knowledge and applying in real life.  PO-3: Investigate integrated solutions using emerging technologies.  PO-4: Apply professional ethics and cyber regulations in the realmate technology.  PO-5: Ability to select modern computing tools, skills, and technical necessary for innovative software solutions.  PO-6: Communicate Effectively with the computing community be to comprehend effective documentation and presentations.  PO-7: Identify opportunities, entrepreneurship vision and use innovative ideas to create value and wealth for the better the individual and society	atical iter based ing the same es. in of global ques by being able e of

# Program Specific Outcome: B. C. A.

Program		Program Outcome
		After the completion of three years of Bachelor in Computer
		Application that is B. C. A. The students will be able to:
	PSO-1:	Integrate information technology and application of computers to
		business and office
	PSO-2:	Create a conductive environment in cultivating skills for thriving career
		and higher studies
	PSO-3:	Practical Knowledge of SPSS for doing social science research
B. C. A.	PSO-4:	Understanding the relevance of Date Base Management System in
(Three Years		Business
Bachelor's Degree	PSO-5:	Comprehend computer programs in the allied areas like
Program)		algorithms, system software, multimedia, web design and data
		analytics for efficient design of computer based systems.
	PSO-6:	Development of quantitative aptitude, presentation and analytical skills
		of the learner
	PSO-7:	Ability to work in team by strengthening group dynamics
	PSO-8:	To explore technical comprehension in varied areas of computer
		application

#### Course Outcome: B. C. A.

Sr.	<b>.</b>	Name of the	GO	Course Outcome
No.	Program	Course	CO	
1	B. C. A. I	Fundamentals of		After the completion of this Course, students will be
		computer		able to learn following:
			CO-1	To impart knowledge about the structure, components
				and functions of a computer system.
			CO-2	To understand working of basic input and output
				devices.
			CO-3	To learn about the binary number representation along
				with its operations.
			CO-4	Familiarization with the terms like Operating System,
				peripheral devices, networking, multimedia, internet,
				etc.
			CO-5	Learn basic word processing skills with Microsoft
				Word, such as text input and formatting, editing, cut,
				copy and paste, spell check, margin and tab control,
				keyboard shortcuts, printing, as well as how to include
				some graphics such as pictures and charts.
2	B. C. A. I	Logic		After the completion of this Course, students will be
		Development		able to learn following:
		with C	CO-1	To learn advance structured and procedural
		Programing	GO 2	programming and to improve C programming skills.
			CO-2	To understand the basic structure of a C program.
			CO-3	To gain knowledge of various programming errors.
			CO-4	To enable the students to make flowchart and design an
			CO 5	algorithm for a given problem.
			CO-5	Understanding a functional hierarchical code
3	B. C. A. I	English		organization  After the completion of this Course, students will be
3	В. С. А. I	(Communication		able to learn following:
		Skills)	CO-1	Acquire four basic skills: Listening, Speaking Reading
		Skiiis)	CO-1	and Writing
			CO-2	Use English language effectively in real life situations
			CO-2	Acquire the art of formal corresponding writing
			CO-4	Comprehend the terminologies from the discourse of
				computer computer
			CO-5	Learn presentation skills
				Domin procedution same

Mathematics able to learn following:  CO-1 Understand foundations of mathematic  CO-2 Be able to perform basic computations mathematics	es es
CO-2 Be able to perform basic computations	es
mathematics	in higher
mathematics	
CO-3 Be able to read and understand foundat	tion algorithms
and mathematics	
CO-4 To write and understand basic proofs	
CO-5 Develop problem solving skills	
5 B. C. A. I Advanced After the completion of this Course, stu	udents will be
Programming in able to learn following:	
C CO-1 Ability to design and develop Compute	er programs,
analyzes, and interprets the concept of	pointers,
declarations, initialization, operations of	on pointers and
their usage.	
CO-2 Utilize the best of the inbuilt functions	for various
input and output operations.	
CO-3 Implement problem solving skills using	g pointer concept
of the programming languages.	
CO-4 Work efficiently with files using the pr	rogramming
languages.	
CO-5 To be able to develop C programs on c	ompiler.
6 B. C. A. I Basics of Web After the completion of this Course, stu	udents will be
Programming able to learn following:	
CO-1 To understand the concept of HTML to	o develop their
web development skill.	
CO-2 Create and use pivot tables and pivot of	charts.
CO-3 Understanding the use of HTML tags.	
CO-4 Designing and Developing web pages	using HTML.
CO-5 Ability to Animate and Design the doct	
7 B. C. A. I Software After the completion of this Course, stu	udents will be
Engineering able to learn following:	
CO-1 To inculcate in students different conce	epts of software
engineering principles	
CO-2 To develop the skills necessary to design	gn, develop and
execute software projects.	
CO-3 Select and implement different softwar	re development
process models	

			CO-4	Develop some basic level of software
				architecture/design
			CO-5	Implement software development efficiently and
				effectively
8 I	B. C. A. I	A Digital		After the completion of this Course, students will be
		Electronics		able to learn following:
			CO-1	To acquire the basic knowledge of digital logic levels
				and application of knowledge to understand digital
				electronics circuits.
			CO-2	To prepare students to perform the analysis and design
				of various digital electronic circuits.
			CO-3	Have a thorough understanding of the fundamental
				concepts and techniques used in digital electronics.
			CO-4	To understand and examine the structure of various
				number systems and its application in digital design.
			CO-5	Ability to identify basic requirements for a design
				application and propose a cost-effective solution.
9 I	B. C. A. I	Statistical		After the completion of this Course, students will be
		Method		able to learn following:
			CO-1	To impart knowledge of various statistical
				techniques.
			CO-2	Ability to apply various statistical techniques such as
				Measures of Central Tendency and Dispersion.
			CO-3	Understanding of relationship between variables using
				the method of Correlation and Trend Fit Analysis.
			CO-4	To develop students' understanding through laboratory
				activities to solve problems related to above stated
				concepts.
			CO-5	Skill to execute programs of various Numerical
				Methods and Statistical Techniques for solving
				mathematical problems.
I	B. C. A. II	Data structures		After the completion of this Course, students will be
		using 'C'		able to learn following:
			CO-1	Write programs that use arrays, records, linked
				structures, stacks, queues, trees, and graphs
			CO-2	Describe common applications for arrays, records,
				linked structures, stacks, queues and trees.
			CO-3	Demonstrate different methods for traversing trees

		CO-4	Compare alternative implementations of data
			structures with respect to performance.
		CO-5	Discuss the computational efficiency of the principal
			algorithms for sorting and searching.
B. C. A. II	Networking &		After the completion of this Course, students will be
	Data		able to learn following:
	communication	CO-1	Explain the role of protocols in networking
		CO-2	Administer and maintain a computer network.
		CO-3	Demonstrate basic understanding of network principles
		CO-4	Have a good understanding of the OSI Reference
			Model and in particular have a good knowledge of
			Layers 1-3.
		CO-5	Demonstrate understanding of how computers
			communicate
B. C. A. II	DBMS with		After the completion of this Course, students will be
	Oracle		able to learn following:
		CO-1	Introduce basic concepts and major techniques in
			DBMS implementations.
		CO-2	Introduce research development ability in databases
			through technical survey and reading
		CO-3	Explain in detail DBMS architecture.
		CO-4	Explain the principles of concurrency control
		CO-5	Explain the principles of recovery management.
B. C. A. II	OOP with C++		After the completion of this Course, students will be
			able to learn following:
		CO-1	Familiarization with a widely used programming
			concept – Object Oriented Programming.
		CO-2	Develop logical thinking.
		CO-3	Skill to write codes in C++ by applying concept of
			OOP, such as Objects, Classes, Constructors,
			Inheritance etc., to solve mathematical or real-world
			problems.
		CO-4	Ability to isolate and fix common errors in
			C++programs
B. C. A. II	Operations		After the completion of this Course, students will be
	Research		able to learn following:
		CO-1	Do research in the emerging areas of cryptography and
			network security
		CO-2	Solution of LPP by using graphical method

		CO-3	Methods of obtaining initial basic feasible solution
			(IBFS) of Transportation Problems
		CO-4	Learn mathematical models of Assignment Problems
		CO-5	Understand Linear programing problem
B. C. A. II	Software Testing		After the completion of this Course, students will be
			able to learn following:
		CO-1	Gain a broad understanding of the discipline of
			software Testing and Quality Management.
		CO-2	Understand software test automation problems and
			solutions.
		CO-3	Comprehend the concepts related to Software Quality
			Attributes, Quality Planning, Software Quality Control
			and Software Quality Assurance.
		CO-4	Learn and demonstrate various software evaluation
			techniques
B. C. A. II	Python		After the completion of this Course, students will be
			able to learn following:
		CO-1	Understand the features python program
		CO-2	Comprehend Performing Assignment and arithmetic
			operations
		CO-3	Learn Precedence of operators
		CO-4	Learn functions and modules of python
		CO-5	Learn formal parameters, actual and function
			parameters
B. C. A. II	Operating System		After the completion of this Course, students will be
			able to learn following:
		CO-1	To understand the working of operating system as a
			resource manager.
		CO-2	To familiarize the students with Process and Memory
			management.
		CO-3	To describe the problem of process synchronization
			and its solution.
		CO-4	Ability to apply CPU scheduling algorithms to manage
		go -	tasks.
		CO-5	Knowledge of methods of prevention and recovery
D C + **	A 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1		from a system deadlock.
B. C. A. II	Advanced Web		After the completion of this Course, students will be
	technology		able to learn following:

		CO-1	Create Format cells, rows, columns, and entire
			worksheets
		CO-2	Understand benefits of PHP as a server side language
		CO-3	Learn object oriented programing in PHP
		CO-4	Create and use pivot tables and pivot charts. By
			learning the course, the students will be able to perform
			documentation, to perform accounting operations, to
			perform presentation skills
		CO-5	Work with forms and database with MySQL
B. C. A. II	E- Governance		After the completion of this Course, students will be
			able to learn following:
		CO-1	Acquaint the concept of e-governance
		CO-2	Understand managing e-governance strategy and
			implementation
		CO-3	To lean four stages of e-governance
		CO-4	To understand performance management
B. C. A. III	Core Java		After the completion of this Course, students will be
			able to learn following:
		CO-1	Understand software design, implementation, and
			testing using Java
		CO-2	Understands fundamentals of basic java programming
		CO-3	Introduces object-oriented design techniques and
			problem solving.
		CO-4	Use an integrated development environment to write,
			compile, run, and test simple object-oriented Java
			programs
		CO-5	Use a version control system to track source code in a
			project.
B. C. A. III	Visual		After the completion of this Course, students will be
	Programing		able to learn following:
		CO-1	To understand the concepts of windows
			Programming.
		CO-2	To develop applications using Visual Basic.
		CO-3	Creating dialogs, menus, windows and use Windows
			common dialogs
		CO-4	Developing modular, reusable Visual Basic code and
			forms
		CO-5	Demonstrate knowledge of programming terminology
			and how applied using Visual

]	B. C. A. III	Linux and Shell		After the completion of this Course, students will be
		Programing		able to learn following:
			CO-1	Understand origin and development of linux
			CO-2	Understand Linux file System
			CO-3	Learn command, utilities and file management
			CO-4	Learn shell programing and process management
			CO-5	Learn Linux networking
]	B. C. A. III	Data Warehouse		After the completion of this Course, students will be
		and Data Mining		able to learn following:
			CO-1	Understand features of data warehouse
			CO-2	Develop the skill of Data cleaning, integration,
				transformation and reduction
			CO-3	Learn APRIOIRI algorithm, Partition algorithm, FP-
				growth algorithm
	B. C. A. III	Advanced Java		After the completion of this Course, students will be
				able to learn following:
			CO-1	Discuss the computational efficiency of the principal
				algorithms for sorting and searching.
			CO-2	Learn GGI, Servlet, API, session tracking mechanism
			CO-3	Comprehend advances of JSP
			CO-4	Know the basics of hibernate
			CO-5	Grasp the knowledge of spring modules
	B. C. A. III	Recent Trends in		After the completion of this Course, students will be
		IT		able to learn following:
			CO-1	Discuss the computational efficiency of the principal
			~~ -	algorithms for sorting and searching.
			CO-2	To understand the nanotechnology in the discourse of
			GO 1	computer
			CO-3	Explore computer with various fields with new
	D.C.A.III			measures
	B. C. A. III	Cryptography		After the completion of this Course, students will be
		and Network	00.1	able to learn following:
		Security	CO-1	Understand design issues in Cryptography and
			CO 2	Network Security
			CO-2	Understand security threats, security services and
			CO 2	mechanisms to counter.
			CO-3	Administer and maintain a computer network.
			CO-4	Understand various System Security Threats –
				Intruders, Viruses & related Threats

	i			
	B. C. A. III	Recent Trends		After the completion of this Course, students will
		in IT		be able to learn following:
		2021 2022		-
		2021-2022,	CO-1	Discuss the computational efficiency of the
		2022-2023		principal algorithms for sorting and searching.
		2023-2024		
			CO-2	To understand the nanotechnology in the discourse
				of computer
			CO-3	Explore computer with various fields with
			00-3	
				new measures
	B. C. A. III	Cryptography		After the completion of this Course, students will
	and Network Security 2021-2022, 2022-2023 2023-2024	and Network		be able to learn following:
		Security		-
		2021-2022, 2022-2023	CO-1	Understand design issues in Cryptography
				and Network Security
			GO 2	
			CO-2	Understand security threats, security services
				and mechanisms to counter.
			CO-3	Administer and maintain a computer network.
				-
			CO-•	Understand various System Security
			+	Threats – Intruders, Viruses & related
				Threats

B. C. A. III	.Net Technology		After the completion of this Course, students will be able to:
	2021-2022,	CO-1	Configure an asp.net application.
	2022-2023	CO-2	Develop a data driven web application.
	2023-2024	CO-3	Creating ASP.Net applications using standard .net controls.
		CO-4	Design web applications using ASP.NET
		CO-5	Create database driven ASP.NET web applications and web services

## **Program Outcome (PO)**

# Program Specific Outcome (PSO) Course Outcome (CO)

Programs- B. Com., B. A. and B. C. A.

**Address:** 

Raviwar Peth, Rajendra Chowk, Solapur-413005 Maharashtra, India Email- arburla@gmail.com Website- arburla.org

#### Program Outcome: B. Com.

Our College is affiliated to Punyashlok Ahilyadevi Holkar Solapur University, Solapur. Board of Studies of the university design the Program Outcome. The college rigorously follow the Program outcome designed by the university.

Program	Program Outcome
B. Com. (Three Years Bachelor's	PO-1-After completing three years for Bachelors in Commerce (B.Com) program, students would gain a thorough grounding in the fundamentals of Accountancy.
Degree Program)	PO-2 - After completing graduation, students can get skills regarding various aspects like Marketing Manager, Selling Manager, over all Administration abilities of the Company.
	PO-3-Capability of the students to make decisions at personal & professional level will increase after completion of this course. In advanced accounting courses beyond the introductory level, affective development will also progress to the valuing and organization levels.
	PO-4-The primary goal of accounting education is to produce competent and ethical professional accountants capable of making a positive contribution over their lifetimes to the profession and society in which they work.

#### Program Specific Outcome: B. Com.

Program	Program Specific Outcome
B. Com. (Three Years Bachelor's Degree	PSO – 1: Students will be able to demonstrate progressive learning of various tax issues and tax forms related to individuals. Students will be able to demonstrate knowledge in setting up a computerized set of accounting books
Program)	PSO – 2: The students can get the knowledge, skills and attitudes during the end of the B.com degree course.
	PSO – 3: Students will learn relevant financial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.

PSO – 4: Students will learn relevant managerial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.
PSO – 5: Learners will gain thorough systematic and subject skills within various disciplines of commerce, business, accounting, economics, finance, auditing and marketing.
PSO-6: Learners will be able to prove proficiency with the ability to engage in competitive exams like CA, CS, ICWA and other courses.
PSO – 7:Students will be able to do their higher education and can make research in the field of finance and commerce.
PSO – 8: Learners can also acquire practical skills to work as tax consultant, audit assistant and other financial supporting services
PSO - 9: Learners will be able to do higher education and advance research in the field of commerce and finance.

## Course Outcome: B. Com.

Sr. No.	Name of the Course	Course Outcome
1	B. Com. I English Compulsory 2019-2020, 2020-2021, 2021-2022	At the end of the course students will:  To offer relevant and practically helpful pieces of prose and poetry to students so that they not only get to know the beauty and communicative power of English but also its practical application  CO-1. Acquaint with four skills: Listening, Speaking, Reading and Writing  CO-2. Expand their vocabulary after reading the prescribed texts. CO-3. Comprehend the meaning of symbolic and creative language used in the poems.  CO-4. Be aware of the correct usage of English grammar CO-5. Become familiar with selected literary forms, develop and strengthen their imaginative ability and the ability to analyze different literary forms

2	B. Com. I Financial Accounting 2019-2020, 2020-2021, 2021-2022	On successful completion of this course learners will be able to: CO-1. Draw from financial information to construct a debit/credit transaction.  CO-2.Develop and understand the nature and purpose of financial statements in relationship to decision making.  CO-3 Develop the ability to use a basic accounting system to create (record, classify, and summarize) the data needed to solve a variety of business problems
3	B. Com. I Business Economics 2019-2020, 2020-2021, 2021-2022	At the end of this course:  CO-1. Students can apply the knowledge of market economy and price mechanism, demand elasticity, indifference curve analysis and demand forecasting analysis in price fixing.  CO-2. Employ marginal analysis for decision making  CO-3. Evaluate the Demand and Supply, elasticity of demand and Law of returns
4	B. Com. I Principles of Business Management 2019-2020, 2020-2021, 2021-2022	On completion of this course, the student will be able to: CO-1. This paper familiarizes the students with the basic concepts of management in order to aid in understanding of how an organization functions, and in understanding the complexity and wide variety of issues managers face in today's business firms.  CO-2. Understand the four management functions of planning, organizing, leading and controlling.  CO-3. The students gain knowledge about the basic principles and functions of management.  CO-4. Understand the complexities associated with management of human resources in the organization integrate the learning in handling these complexities.  CO-5. Demonstrate the ability to directing leadership and communicate effectively.  CO-6. Demonstrate the roles, skills, and functions of management

5	B. Com. I Principles of Marketing 2019-2020, 2020-2021, 2021-2022	On completion of this course, the students will be able to learn following things:  CO-1. Students will demonstrate strong conceptual knowledge in the functional area of marketing management.  CO-2. Students will demonstrate effective understanding of relevant functional areas of marketing management and its application.  CO-3. Students will demonstrate analytical skills in identification and resolution of problems pertaining to marketing management.
6	B. Com. I Insurance 2019-2020, 2020-2021, 2021-2022	On completion of this course, the students will be able to learn following things:  CO-1. The students are given an introduction about the risks and Insurance as a measure to manage risk. Detailed explanation regarding the different types of insurance and its modalities are included. Students will get knowledge about the usage of insurance in personal and business life  CO-2. Students will be capable to understand the insurance practices and its policy  CO-3. Recognize and act within the rules of professional conduct CO-4. Identify the client's reasonable expectations as to quality and timeliness of service.  CO-5. Reflect on their learning and identify learning needs.
7	B. Com. II Corporate Accounting 2020-2021, 2021-2022, 2022-2023	On completion of this course, the students will be able to learn following things:  CO-1. They are able to obtain the knowledge of merits and demerits mergers, acquisition and other strategies to avoid risk.  CO-2. They are fully qualified to become a company secretary, stock broker, finance controller, investment analyst and tax auditor.  CO-3. Enhance knowledge about various Accounting standards and its importance while preparing financial statement.  CO-4. Develop students' knowledge and skill about issue and forfeiture of shares & debentures, valuation of shares, company final account and liquidation.

8	B. Com. II  Money and  Financial System  2020-2021,  2021-2022,  2022-2023	On completion of this course, the students will be able to learn following things:  CO 1: To understand the roles and functions of the Financial market.  CO 2: To understand the principles of lending.  CO 3: To know how to manage risk in banks  CO 4: To understand the importance of ethics in banking and financial institutions.
9	B. Com. II Fundamental of Entrepreneurship 2020-2021, 2021-2022, 2022-2023	CO 5: To apply ethics at workplace  On completion of this course, the students will be able to learn following things:  CO-1. To develop entrepreneurial awareness among students.  CO-2. To motivate students to make their mind set for thinking entrepreneurship as career.  CO-3. To make aware of small scale business  CO-4. To introduce the importance of Self Help Groups  CO-5. To empower students with women entrepreneurship
10	B. Com. II Business Statistics 2020-2021, 2021-2022, 2022-2023	On completion of this course, the students will be able to learn following things:  CO-1. To introduce students with basic Statistical concepts  CO-2. To understand the different concept of population and sample and to make students familiar with Calculation of various types of averages and variation  CO-3.Calculate Measures of Central Tendency for the given data.  CO-4. Study the concept of Regression and Properties of correlation and regression coefficients
11	B. Com. II Business Economics 2020-2021, 2021-2022, 2022-2023	On completion of this course, the students will be able to learn following things:  CO-1. Students can apply the knowledge of market economy and price mechanism, demand elasticity, indifference curve analysis and demand forecasting analysis in price fixing.  CO-2. Students can versed in the concepts, tools and principles in the field of business economics.  CO-3. Students can apply the knowledge of breakeven point

		analysis in their business.
12	B. Com. III Advanced Accountancy - I 2018-2019, 2019-2020 2020-2021	On completion of this course, the students will be able to learn following things:  CO-1. To impart the knowledge about accounting methods, procedures and techniques, To provide the knowledge of various accounting concepts  CO-2. To help the students to acquire the conceptual and practical knowledge of Advanced Accountancy and to learn the techniques of preparing the financial statements.  CO-3. Identify and explain the conceptual underpinnings for current advanced financial accounting and reporting issues.

13	B. Com. III	On completion of this course, the students will be able to learn
	Co-operative	following things:
	Development	CO-1. To understand the cooperative movement from India
	2018-2019,	CO-2. To understand the law of cooperative organizations in
	2019-2020	India
	2020-2021	CO-3. To understand various types of cooperative
		societies
		CO-4. To identify pros and cons of cooperative
		institutions.
14	B. Com. III	On completion of this course, the students will be able to learn
	Advanced	following things:
	Accountancy –II	CO-1.Students will be versed in the fundamental concepts of
	Auditing and	Auditing and different aspects of tax.
	Taxation	CO-2.Students can understand Income Tax system properly,
	2018-2019,	and can get the knowledge of different tax provisions
	2019-2020	CO-3. To understand direct and indirect tax
	2020-2021	CO-4. To understand the concepts like fund flow and cash flow

15	B. Com. III Modern Management Practice 2018-2019, 2019-2020 2020-2021	On completion of this course, the students will be able to learn following things:  CO-1. The objective to make the students understand the modern management practices adopted by the business houses to withstand the global competition  CO-2. To create awareness about career opportunities in B.P.O and Event management.  CO-3. To create awareness about different modes of entering international business  CO-4. to make the students understand the modern management practices adopted by the business houses to withstand the global competition.
16	B. Com. III Business Economics 2018-2019, 2019-2020 2020-2021	On completion of this course, the students will be able to learn following things:  CO-1. Students can apply the knowledge of market economy and price mechanism, demand elasticity, indifference curve analysis and demand forecasting analysis in price fixing.  CO-2. Students can versed in the concepts, tools and principles in the field of business economics.  CO-3. Students can apply the knowledge of breakeven point analysis in their business.

17	B. Com. III Business Regulatory Framework 2018-2019, 2019-2020 2020-2021	On completion of this course, the students will be able to learn following things:  CO-1. To provide an overview of basic concepts related to Industrial law  CO-2. To provide knowledge of Partnership act and LLP  Act CO-3. To understand concept of mercantile law  CO-4. To learn about contract act  CO-5. To describe the provisions of agency
----	--	---

#### **Program Outcome: B. A.**

Program	Program Outcome	
B. A.	After the completion of three years of Bachelor in Arts that is	
(Three Years	B.A. The students will be able to:	
Bachelor's		
Degree	PO-1: Understand diverse cultures through miscellaneous disciplines	
Program)	PO-2: Demonstrate intercultural awareness and competence.	
	PO-3: : On graduating, the students will be eligible for employment in tourism, media, hospitality, and other industries. Students also become employable in non-governmental organizations	
	PO-4:They will also be able to appear for competitive examinations conducted for public sector jobs.	
	PO-5: Programme provides the base to be the responsible citizen.	

## Program Specific Outcome: B. A.

IDS Paper No. IV and VI 2020-2021, 2021-2022, 2022-2023	After the completion of this Course, students will be able to learn following:  CO-1. To acquaint the students with the social change process in modern Maharashtra.  CO-2. To generate curiosity to detail study the work of social reformers. During the 19th and 20th centuries a series of social reform movements took place in Maharashtra and India.  CO-3. India. This reform movement advocated and supported changes in the traditional Indian society. They propagated the values of social justice and equality.  CO-4. The advocated the abolition of the caste system and supported the emancipation of

	women.

B. A. III	History Special Paper- Ancient India (Pre-Historic Period to 650 A.D.) Paper No VII & XII 2018-2019, 2019-2020 2020-2021	After the completion of this Course, students will be able to learn following: CO-1. Students will be able to examine the institutional basis of Ancient India. CO-2. Identify the rulers and their administration. CO-3. Evaluate the legacy of Buddhism and Jainism. CO-4. Analyze the features of art and architecture of Ancient India. CO-5. Students will be able to explain our heritage through cultural aspects of Ancient India.
B. A. III	History Special Paper- Mughal India (1526A.D1707A.D.) Paper No VIII & XIII 2018-2019, 2019-2020 2020-2021	After the completion of this Course, students will be able to learn following:  CO-1. Analyze the impact of Mughal rule on Indian polity and society.  CO-2. Assess the economy and religion of Mughal rule.  CO-3. Students will be able to examine social, economic and religious condition in Medieval period  CO-4. Analyze the features of art and architecture of Mughal period.
B. A. III	History Special Paper- Expansion and Downfall of the Maratha Power (1707-1818 A.D.) Paper No IX & XIV 2018-2019, 2019-2020 2020-2021	After the completion of this Course, students will be able to learn following:  CO-1.Students will be able to analyze the Marathas policy of expansionism  CO-2. Understand the role played by the Marathas in the eighteenth century polity.  CO-3. Identify the causes of the downfall of the Maratha empire.  CO-4. Students will be able to analyze the civil administration, military administration and judicial system during the Peshwa period.

B. A. III	History Special Paper-Modern World (1870 - 2000 A.D.) Paper No X & XV 2018-2019, 2019-2020 2020-2021	After the completion of this Course, students will be able to learn following: CO-1. Students will understand the relations between the nations in the world. CO-2. Students will study the political, social and economic challenges in the Modern World. CO-3. Analyze the streamline the role of League of Nations and UNO. CO-4. Students understand the consequences of the World War I, World War II and Cold War regarding the present global crises.
B. A. III	History Special Paper- Historical Sources, Research and Places NoXI & XVI 2018-2019, 2019-2020 2020-2021	After the completion of this Course, students will be able to learn following:  CO-1. Students will be able to explain the term history and its importance. Students will be able to explain what is History and the importance of History.  CO-2. Identify the different types of primary and secondary sources.  CO-3. Students will be able to examine sources of History.  CO-4. Students will understand the Museum and Historical tourism.  CO-5. Analyze the work of Great historians.

## Program Outcome: B. C. A.

Program		Program Outcome
B. C. A. (Three Years		After the completion of three years of Bachelor in Computer Application that is B. C. A. The students will be able to:
Bachelor's  Degree  Program)	PO-1:	Acquire basic knowledge of computer application, mathematical foundation and algorithm principles in the design of computer based systems.
	PO-2:	Develop problem analysis skills and knowledge and applying the same in real life.
	PO-3:	Investigate integrated solutions using emerging technologies.
	PO-4:	Apply professional ethics and cyber regulations in the realm of global technology.
	PO-5:	Ability to select modern computing tools, skills, and techniques necessary for innovative software solutions.

PO-6:	Communicate Effectively with the computing community by being able to comprehend effective documentation and presentations.
PO-7:	Identify opportunities, entrepreneurship vision and use of innovative ideas to create value and wealth for the betterment of the individual and society

## Program Specific Outcome: B. C. A.

Program		Program Outcome
B. C. A. (Three Years Bachelor's		After the completion of three years of Bachelor in Computer Application that is B. C. A. The students will be able to:
Degree Program)	PSO-1:	Integrate information technology and application of computers to business and office
	PSO-2:	Create a conductive environment in cultivating skills for thriving career and higher studies
	PSO-3:	Practical Knowledge of SPSS for doing social science research
	PSO-4:	Understanding the relevance of Date Base Management System in Business
	PSO-5:	Comprehend computer programs in the allied areas like algorithms, system software, multimedia, web design and data analytics for efficient design of computer based systems.
	PSO-6:	Development of quantitative aptitude, presentation and analytical skills of the learner
	PSO-7:	Ability to work in team by strengthening group dynamics
	PSO-8:	To explore technical comprehension in varied areas of computer application

### Course Outcome: B. C. A.

Sr. No.	Program	Name of the Course	СО	Course Outcome
1	B. C. A. I	Fundamentals of computer		After the completion of this Course, students will be able to learn following:
		2019-2020, 2020-2021, 2021-2022	CO-1	To impart knowledge about the structure, components and functions of a computer system.
		2021-2022	CO-2	To understand working of basic I/O devices and memory devices.
			CO-3	To Understand computer generation and Evaluation
			CO-4	Familiarization with the terms like peripheral devices, networking, multimedia, internet, etc.
			CO-5	Learn basic word processing skills with Microsoft Word, such as text input and formatting, editing, cut, copy and paste, spell check, margin and tab control, keyboard shortcuts, printing, as well as how to include some graphics such as pictures and charts.
2	B. C. A. I	Logic Development with C Programing 2019-2020, 2020-2021,		After the completion of this Course, students will be able to learn following:
			CO-1	To learn structured and procedural programming and to improve C programming skills.
			CO-2	To understand the basic structure of a C program.
		2021-2022	CO-3	To gain knowledge of various programming errors.
			CO-4	To enable the students to make flowchart and design an algorithm for a given problem.
			CO-5	Understanding a functional hierarchical code organization
3	B. C. A. I	B. C. A. I English (Communicati on Skills) 2019-2020,		After the completion of this Course, students will be able to learn following:
			CO-1	Acquire four basic skills: Listening, Speaking Reading and Writing

	2020-2021, 2021-2022	CO-2	Use English language effectively in real life situations
		CO-3	Acquire the art of formal corresponding writing
		CO-4	Comprehend the terminologies from the discourse of computer
		CO-5	Learn presentation skills

4	Mathematics		After the completion of this Course, students will be able to learn following:	
		2019-2020,	CO-1	Understand foundations of mathematics
	2020-2021, 2021-2022	CO-2	Be able to perform basic computations in higher mathematics	
			CO-3	Be able to read and understand foundation algorithms and mathematics
			CO-4	To write and understand basic proofs
			CO-5	Develop problem solving skills
5	B. C. A. I Advanced Programming in C 2019-2020, 2020-2021, 2021-2022			After the completion of this Course, students will be able to learn following:
		2019-2020, 2020-2021,	CO-1	Ability to design and develop Computer programs, analyzes, and interprets the concept of pointers, declarations, initialization, operations on pointers and their usage.
			CO-2	Utilize the best of the inbuilt functions for various input and output operations.
			CO-3	Implement problem solving skills using pointer concept of the programming languages.
			CO-4	Work efficiently with files using the programming languages.
			CO-5	To be able to develop C programs on compiler.
6	B. C. A. I	Basics of Web Programming		After the completion of this Course, students will be able to learn following:

		2019-2020, 2020-2021,	CO-1	To understand the concept of HTML to develop their web development skill.
		2021-2022	CO-2	Create and use pivot tables and pivot charts.
			CO-3	Understanding the use of HTML tags.
			CO-4	Designing and Developing web pages using HTML.
			CO-5	Ability to Animate and Design the document.
7	B. C. A. I Software Engineering		After the completion of this Course, students will be able to learn following:	
		2019-2020, 2020-2021, 2021-2022	CO-• 1	To inculcate in students different concepts of software engineering principles
		CO-• 2	To develop the skills necessary to design, develop and execute software projects.	
			CO-• 3	Select and implement different software development process models

			CO-• 4	Develop some basic level of software architecture/design
		CO-• 5	Implement software development efficiently and effectively	
8	B. C. A. I	A Digital Electronics		After the completion of this Course, students will be able to learn following:
	2019-2020, 2020-2021, 2021-2022	2020-2021,	CO-1	To acquire the basic knowledge of digital logic levels and application of knowledge to understand digital electronics circuits.
			CO-2	To prepare students to perform the analysis and design of various digital electronic circuits.
		CO-3	Have a thorough understanding of the fundamental concepts and techniques used in digital electronics.	
			CO-4	To understand and examine the structure of various number systems and its application in

				digital design.
			CO-5	Ability to identify basic requirements for a design application and propose a cost-effective solution.
9	B. C. A. I	Statistical Method		After the completion of this Course, students will be able to learn following:
		2019-2020, 2020-2021, 2021-2022	CO-1	To impart knowledge of various statistical techniques.
		2021 2022	CO-2	Ability to apply various statistical techniques such as Measures of Central Tendency and Dispersion.
			CO-3	Understanding of relationship between variables using the method of Correlation and Trend Fit Analysis.
			CO-4	To develop students' understanding through laboratory activities to solve problems related to above stated concepts.
			CO-5	Skill to execute programs of various  Numerical Methods and Statistical  Techniques for solving mathematical problems.
	8 u 8	Data structures using 'C' - I & II 2020-2021,		After the completion of this Course, students will be able to learn following:
			CO-1	Write programs that use arrays, records, linked structures, stacks, queues, trees, and graphs
		2021-2022, 2022-2023	CO-2	Describe common applications for arrays, records, linked structures, stacks, queues and trees.
			CO-3	Demonstrate different methods for traversing trees
			CO-4	Compare alternative implementations of data structures with respect to performance.

			CO-5	Discuss the computational afficiency of the
			CO-3	Discuss the computational efficiency of the principal algorithms for sorting and searching.
	B. C. A. II	Computer Networking- I & II		After the completion of this Course, students will be able to learn following:
		2020-2021,	CO-1	Explain the role of protocols in networking
		2021-2022, 2022-2023	CO-2	Administer and maintain a computer network.
		2022-2023	CO-3	Demonstrate basic understanding of network principles
			CO-4	Have a good understanding of the OSI  Reference Model and in particular have a good knowledge of Layers 1-3.
			CO-5	Demonstrate understanding of how computers communicate
	B. C. A. II	B. C. A. II DBMS 2020-2021,		After the completion of this Course, students will be able to learn following:
		2021-2022, 2022-2023	CO-1	Introduce basic concepts and major techniques in DBMS implementations.
			CO-2	Introduce research development ability in databases through technical survey and reading
			CO-3	Explain in detail DBMS architecture.
			CO-•	Explain the principles of concurrency control
			CO-• 5	Explain the principles of recovery management.
	B. C. A. II	OOP with C++ -I & II 2020-2021,		After the completion of this Course, students will be able to learn following:
		2021-2022, 2022-2023	CO-1	Familiarization with a widely used programming concept – Object Oriented Programming.
			CO-2	Develop logical thinking.
			CO-3	Skill to write codes in C++ by applying concept of OOP, such as Objects, Classes, Constructors, Inheritance etc., to solve mathematical or

		real-world problems.	
		CO-4	Ability to isolate and fix common errors in C++programs
B. C. A. II	Cyber Security 2020-2021, 2021-2022, 2022-2023  CO-1		After the completion of this Course, students will be able to learn following:
		Do research in the emerging areas of cryptography and network security	
		CO-2	Solution of LPP by using graphical method

			CO-3	Methods of obtaining initial basic feasible solution (IBFS) of Transportation Problems
			CO-4	Learn mathematical models of Assignment Problems
			CO-5	Understand Linear programing problem
	B. C. A. II	Software Testing 2020-2021,		After the completion of this Course, students will be able to learn following:
	2021-2022, 2022-2023	CO-1	Gain a broad understanding of the discipline of software Testing and Quality  Management.	
		CO-• 2	Understand software test automation problems and solutions.	
		CO-• 3	Comprehend the concepts related to Software Quality Attributes, Quality Planning, Software Quality Control and Software Quality Assurance.	
			CO-4	Learn and demonstrate various software evaluation techniques
	B. C. A. Python 2020-2021, 2021-2022, 2022-2023		After the completion of this Course, students will be able to learn following:	
			CO-1	Understand the features python program
		CO-2	Comprehend Performing Assignment and arithmetic operations	
			СО-3	Learn Precedence of operators

			CO-4	Learn functions and modules of python
			CO-5	Learn formal parameters, actual and function parameters
	B. C. A. II	C. A. Operating System 2020-2021, 2021-2022, 2022-2023		After the completion of this Course, students will be able to learn following:
			CO-1	To understand the working of operating system as a resource manager.
			CO-2	To familiarize the students with Process and Memory management.
			CO-3	To describe the problem of process synchronization and its solution.
			CO-4	Ability to apply CPU scheduling algorithms to manage tasks.
			CO-5	Knowledge of methods of prevention and recovery from a system deadlock.

B. C. A. II	Advanced Web technology 2020-2021,	CO-1	After the completion of this Course, students will be able to learn following: Create Format cells, rows, columns, and entire worksheets
	2021-2022,	CO-2	Understand benefits of PHP as a server side language
	2022-2023	CO-3	Learn object oriented programing in PHP
		CO-4	Create and use pivot tables and pivot charts. By learning the course, the students will be able to perform documentation, to perform accounting operations, to perform presentation skills
		CO-5	Work with forms and database with MySQL
B. C. A. III	Core Java 2018-2019,		After the completion of this Course, students will be able to learn following:
2019-2020 2020-2021	CO-• 1	Understand software design, implementation, and testing using Java	

			CO-• 2	Understands fundamentals of basic java programming
			CO-• 3	Introduces object-oriented design techniques and problem solving.
			CO-4	Use an integrated development environment to write, compile, run, and test simple object-oriented Java programs
			CO-• 5	Use a version control system to track source code in a project.
	B. C. A. III Visual Programing	Programing		After the completion of this Course, students will be able to learn following:
		2018-2019, 2019-2020 2020-2021	CO-1	To understand the concepts of windows Programming.
		CO-	CO-2	To develop applications using Visual Basic.
			CO-3	Creating dialogs, menus, windows and use Windows common dialogs
			CO-4	Developing modular, reusable Visual Basic code and forms
			CO-5	Demonstrate knowledge of programming terminology and how applied using Visual

		Linux and Shell		After the completion of this Course, students will be able to learn following:
		Programing	CO-1	Understand origin and development of linux
		2018-2019, 2019-2020	CO-2	Understand Linux file System
		2020-2021	CO-3	Learn command, utilities and file management
			CO-4	Learn shell programing and process management
			CO-5	Learn Linux networking
	B. C. A. III	Data Warehouse		After the completion of this Course, students will be able to learn following:
		and Data Mining  CO-1	CO-1	Understand features of data warehouse

	2018-2019, 2019-2020 2020-2021	CO-2	Develop the skill of Data cleaning, integration, transformation and reduction  Learn APRIOIRI algorithm, Partition algorithm,
			FP growth algorithm
B. C. A. III	Advanced Java 2018-2019,		After the completion of this Course, students will be able to learn following:
	2019-2020 2020-2021	CO-1	Discuss the computational efficiency of the principal algorithms for sorting and searching.
		CO-2	Learn GGI, Servlet, API, session tracking mechanism
		CO-3	Comprehend advances of JSP
		CO-4	Know the basics of hibernate
		CO-5	Grasp the knowledge of spring modules
B. C. A. III	Recent Trends in IT		After the completion of this Course, students will be able to learn following:
	2018-2019, 2019-2020 2020-2021	CO-1	Discuss the computational efficiency of the principal algorithms for sorting and searching.
		CO-2	To understand the nanotechnology in the discourse of computer
		CO-3	Explore computer with various fields with new measures
B. C. A. III	Cryptography and Network Security 2018-2019, 2019-2020 2020-2021		After the completion of this Course, students will be able to learn following:
		CO-1	Understand design issues in Cryptography and Network Security
		CO-2	Understand security threats, security services and mechanisms to counter.
		CO-3	Administer and maintain a computer network.
		CO-• 4	Understand various System Security Threats – Intruders, Viruses & related Threats

B. C. A. III	.Net Technology		After the completion of this Course, students will be able to:
2018-2019,		CO-1	Configure an asp.net application.
	2019-2020	CO-2	Develop a data driven web application.
	2020-2021	CO-3	Creating ASP.Net applications using standard .net controls.
		CO-4	Design web applications using ASP.NET
		CO-5	Create database driven ASP.NET web applications and web services

## **Program Outcome (PO)**

# Program Specific Outcome (PSO) Course Outcome (CO)

Programs- B. Com., B. A. and B. C. A.

**Address:** 

Raviwar Peth, Rajendra Chowk, Solapur-413005 Maharashtra, India Email- arburla@gmail.com Website- arburla.org

### Program Outcome: B. Com.

Our College is affiliated to Punyashlok Ahilyadevi Holkar Solapur University, Solapur. Board of Studies of the university design the Program Outcome. The college rigorously follow the Program outcome designed by the university.

Program	Program Outcome
B. Com. (Three Years Bachelor's	PO-1-After completing three years for Bachelors in Commerce (B.Com) program, students would gain a thorough grounding in the fundamentals of Accountancy.
Degree Program)	PO-2 - After completing graduation, students can get skills regarding various aspects like Marketing Manager, Selling Manager, over all Administration abilities of the Company.
	PO-3-Capability of the students to make decisions at personal & professional level will increase after completion of this course. In advanced accounting courses beyond the introductory level, affective development will also progress to the valuing and organization levels.
	PO-4-The primary goal of accounting education is to produce competent and ethical professional accountants capable of making a positive contribution over their lifetimes to the profession and society in which they work.

### Program Specific Outcome: B. Com.

Program	Program Specific Outcome
B. Com. (Three Years Bachelor's Degree	PSO – 1: Students will be able to demonstrate progressive learning of various tax issues and tax forms related to individuals. Students will be able to demonstrate knowledge in setting up a computerized set of accounting books
Program)	PSO – 2: The students can get the knowledge, skills and attitudes during the end of the B.com degree course.
	PSO – 3: Students will learn relevant financial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.

PSO – 4: Students will learn relevant managerial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.
PSO – 5: Learners will gain thorough systematic and subject skills within various disciplines of commerce, business, accounting, economics, finance, auditing and marketing.
PSO-6: Learners will be able to prove proficiency with the ability to engage in competitive exams like CA, CS, ICWA and other courses.
PSO – 7:Students will be able to do their higher education and can make research in the field of finance and commerce.
PSO – 8: Learners can also acquire practical skills to work as tax consultant, audit assistant and other financial supporting services
PSO - 9: Learners will be able to do higher education and advance research in the field of commerce and finance.

## Course Outcome: B. Com.

Sr. No.	Name of the Course	Course Outcome
1	B. Com. I English Compulsory 2019-2020, 2020-2021, 2021-2022	At the end of the course students will:  To offer relevant and practically helpful pieces of prose and poetry to students so that they not only get to know the beauty and communicative power of English but also its practical application  CO-1. Acquaint with four skills: Listening, Speaking, Reading and Writing  CO-2. Expand their vocabulary after reading the prescribed texts. CO-3. Comprehend the meaning of symbolic and creative language used in the poems.  CO-4. Be aware of the correct usage of English grammar CO-5. Become familiar with selected literary forms, develop and strengthen their imaginative ability and the ability to analyze different literary forms

2	B. Com. I Financial Accounting 2019-2020, 2020-2021, 2021-2022	On successful completion of this course learners will be able to: CO-1. Draw from financial information to construct a debit/credit transaction.  CO-2.Develop and understand the nature and purpose of financial statements in relationship to decision making.  CO-3 Develop the ability to use a basic accounting system to create (record, classify, and summarize) the data needed to solve a variety of business problems
3	B. Com. I Business Economics 2019-2020, 2020-2021, 2021-2022	At the end of this course:  CO-1. Students can apply the knowledge of market economy and price mechanism, demand elasticity, indifference curve analysis and demand forecasting analysis in price fixing.  CO-2. Employ marginal analysis for decision making  CO-3. Evaluate the Demand and Supply, elasticity of demand and Law of returns
4	B. Com. I Principles of Business Management 2019-2020, 2020-2021, 2021-2022	On completion of this course, the student will be able to: CO-1. This paper familiarizes the students with the basic concepts of management in order to aid in understanding of how an organization functions, and in understanding the complexity and wide variety of issues managers face in today's business firms.  CO-2. Understand the four management functions of planning, organizing, leading and controlling.  CO-3. The students gain knowledge about the basic principles and functions of management.  CO-4. Understand the complexities associated with management of human resources in the organization integrate the learning in handling these complexities.  CO-5. Demonstrate the ability to directing leadership and communicate effectively.  CO-6. Demonstrate the roles, skills, and functions of management

5	B. Com. I Principles of Marketing 2019-2020, 2020-2021, 2021-2022	On completion of this course, the students will be able to learn following things:  CO-1. Students will demonstrate strong conceptual knowledge in the functional area of marketing management.  CO-2. Students will demonstrate effective understanding of relevant functional areas of marketing management and its application.  CO-3. Students will demonstrate analytical skills in identification and resolution of problems pertaining to marketing management.
6	B. Com. I Insurance 2019-2020, 2020-2021, 2021-2022	On completion of this course, the students will be able to learn following things:  CO-1. The students are given an introduction about the risks and Insurance as a measure to manage risk. Detailed explanation regarding the different types of insurance and its modalities are included. Students will get knowledge about the usage of insurance in personal and business life  CO-2. Students will be capable to understand the insurance practices and its policy  CO-3. Recognize and act within the rules of professional conduct CO-4. Identify the client's reasonable expectations as to quality and timeliness of service.  CO-5. Reflect on their learning and identify learning needs.
7	B. Com. II Corporate Accounting 2020-2021, 2021-2022, 2022-2023	On completion of this course, the students will be able to learn following things:  CO-1. They are able to obtain the knowledge of merits and demerits mergers, acquisition and other strategies to avoid risk.  CO-2. They are fully qualified to become a company secretary, stock broker, finance controller, investment analyst and tax auditor.  CO-3. Enhance knowledge about various Accounting standards and its importance while preparing financial statement.  CO-4. Develop students' knowledge and skill about issue and forfeiture of shares & debentures, valuation of shares, company final account and liquidation.

8	B. Com. II  Money and  Financial System  2020-2021,  2021-2022,  2022-2023	On completion of this course, the students will be able to learn following things:  CO 1: To understand the roles and functions of the Financial market.  CO 2: To understand the principles of lending.  CO 3: To know how to manage risk in banks  CO 4: To understand the importance of ethics in banking and financial institutions.
9	B. Com. II Fundamental of Entrepreneurship 2020-2021, 2021-2022, 2022-2023	CO 5: To apply ethics at workplace  On completion of this course, the students will be able to learn following things:  CO-1. To develop entrepreneurial awareness among students.  CO-2. To motivate students to make their mind set for thinking entrepreneurship as career.  CO-3. To make aware of small scale business  CO-4. To introduce the importance of Self Help Groups  CO-5. To empower students with women entrepreneurship
10	B. Com. II Business Statistics 2020-2021, 2021-2022, 2022-2023	On completion of this course, the students will be able to learn following things:  CO-1. To introduce students with basic Statistical concepts  CO-2. To understand the different concept of population and sample and to make students familiar with Calculation of various types of averages and variation  CO-3.Calculate Measures of Central Tendency for the given data.  CO-4. Study the concept of Regression and Properties of correlation and regression coefficients
11	B. Com. II Business Economics 2020-2021, 2021-2022, 2022-2023	On completion of this course, the students will be able to learn following things:  CO-1. Students can apply the knowledge of market economy and price mechanism, demand elasticity, indifference curve analysis and demand forecasting analysis in price fixing.  CO-2. Students can versed in the concepts, tools and principles in the field of business economics.  CO-3. Students can apply the knowledge of breakeven point

		analysis in their business.
12	B. Com. III Advanced Accountancy - I 2021-2022, 2022-2023 2023-2024	On completion of this course, the students will be able to learn following things:  CO-1. To impart the knowledge about accounting methods, procedures and techniques, To provide the knowledge of various accounting concepts  CO-2. To help the students to acquire the conceptual and practical knowledge of Advanced Accountancy and to learn the techniques of preparing the financial statements.  CO-3. Identify and explain the conceptual underpinnings for current advanced financial accounting and reporting issues.

13	B. Com. III	On completion of this course, the students will be able to learn
	Co-operative	following things:

		2023-2024	प्रयोग से अवगत कराना।
			CO-6. व्यावहारिक हिंदी के माध्यम से रोजगारपरक
			कौशल को विकसित करना।

12	B. A. III	Hindi Special Semester-V & VI Paper-हिंदी भाषा Paper NoXI & XVI 2021-2022, 2022-2023 2023-2024	CO-1. हिंदी का सामान्य परिचय कराना। CO-2. भाषा के विविध रूपों का परिचित कराना। CO-3. हिंदी भाषा एवं लिपि के उद्भव और विकास का परिचय कराना। CO-4. भाषा की शुध्दता के प्रति छात्रों को जाग्रत कराना। CO-5. मानक हिंदी विर्तनी और व्याकरण से छात्रों को परिचित कराना। CO-6. छात्रों को भाषायी कौशल के प्रति जाग्रत कराना।
13	B. A. III	Hindi Special Semester- VI Paper- भाषा विज्ञान Paper No XVI 2021-2022, 2022-2023 2023-2024	CO-1. भाषा के प्रति वैज्ञानिक दृष्टि प्रदान कराना । CO-2. भाषा विज्ञान का सामान्य परिचय कराना । CO-3. ध्विन उच्चारण प्रक्रिया से परिचित कराना। CO-4. उच्चारण की शुध्दता के प्रति जाग्रत कराना । CO-5. पद और अर्थ से परिचित कराना ।

## **Course Outcome: B. A. History**

Sr.	Program	Name of the Course	Course Outcome
No.			
1	B. A. I	History Semester- I and II Paper- I and II Title- Rise of the Maratha Power (1630 to 1707A.D.) 2019-2020, 2020-2021, 2021-2022	After the completion of this Course, students will be able to learn following:  CO-1.Students will be able to examine the institutional basis of Maharashtra.  CO-2. Students will be able to learn the real history of Chhatrapati Shivaji Maharaj and his times.  CO-3. It will help the students to understand the most important and inspiring history of medieval Maharashtra.  CO-4.Students will be able to examine social, economic and religious condition in Medieval Maharashtra  CO-5. Students will be able to analyze the civil

			administration, military administration and judicial system during the 1630 to 1707 A. D.
2	B. A. II	History Optional Semester- III and IV Paper- ID Title-History of Modern Europe (1750 – 1871 A.D.) 2020-2021, 2021-2022, 2022-2023	After the completion of this Course, students will be able to learn following:  CO-1. To acquaint the student with the socio-economic and political development in other countries.  CO-2. understand contemporary Europe in the light of its background History.  CO-3.Become aware of the principles, forces, processes and problems of the recent times.  Highlight the rise and growth of Nationalism as a movement in Europe and the world.
3	B. A. II	History Optional Semester- III and IV Title- History of Indian Freedom Movement (1857 – 1950 A.D.) 2020-2021, 2021-2022, 2022-2023	After the completion of this Course, students will be able to learn following:  CO-1. To introduce the Indian Freedom Movement in a broad manner.  CO-2Modern India owes a lot to the legacy of India's Freedom struggle.  CO-3.This course will help the students to understand the major events of India's freedom struggle, its legacy and its contribution to the making of modern India.  CO-4. To instill the spirit of Nationalism among students.
	B. A. II	History Optional Semester- IV Title-History of Social Reforms in Maharashtra (1818 – 1970 A.D.) IDS Paper No. IV and VI 2020-2021, 2021-2022, 2022-2023	After the completion of this Course, students will be able to learn following:  CO-1. To acquaint the students with the social change process in modern Maharashtra.  CO-2. To generate curiosity to detail study the work of social reformers. During the 19th and 20th centuries a series of social reform movements took place in Maharashtra and India.  CO-3. India. This reform movement advocated and supported changes in the traditional Indian society. They propagated the values of social justice and equality.

	CO-4. The advocated the abolition of the caste system and supported the emancipation of women.

B. A. III	History Special Paper- Ancient India (Pre-Historic Period to 650 A.D.) Paper No VII & XII 2021-2022, 2022-2023 2023-2024	After the completion of this Course, students will be able to learn following:  CO-1. Students will be able to examine the institutional basis of Ancient India.  CO-2. Identify the rulers and their administration.  CO-3. Evaluate the legacy of Buddhism and Jainism.  CO-4. Analyze the features of art and architecture of Ancient India.  CO-5. Students will be able to explain our heritage through cultural aspects of Ancient
B. A. III	History Special Paper- Mughal India (1526A.D1707A.D.) Paper No VIII & XIII 2021-2022, 2022-2023 2023-2024	India.  After the completion of this Course, students will be able to learn following:  CO-1. Analyze the impact of Mughal rule on Indian polity and society.  CO-2. Assess the economy and religion of Mughal rule.  CO-3. Students will be able to examine social, economic and religious condition in Medieval period  CO-4. Analyze the features of art and architecture of Mughal period.

B. A. III	History Special	After the completion of this Course, students will
B. A. III	Paper- Expansion and Downfall of the Maratha Power (1707-1818 A.D.) Paper No IX & XIV 2021-2022, 2022-2023 2023-2024	After the completion of this Course, students will be able to learn following:  CO-1.Students will be able to analyze the Marathas policy of expansionism  CO-2. Understand the role played by the Marathas in the eighteenth century polity.  CO-3. Identify the causes of the downfall of the Maratha empire.  CO-4. Students will be able to analyze the civil administration, military administration and
		judicial system during the Peshwa period.

B. A. III	History Special Paper-Modern World (1870 - 2000 A.D.) Paper No X & XV 2021-2022, 2022-2023 2023-2024	After the completion of this Course, students will be able to learn following:  CO-1. Students will understand the relations between the nations in the world.  CO-2. Students will study the political, social and economic challenges in the Modern World.  CO-3. Analyze the streamline the role of League of Nations and UNO.  CO-4. Students understand the consequences of the World War I, World War II and Cold War regarding the present global crises.
B. A. III	History Special Paper- Historical Sources, Research and Places NoXI & XVI 2021-2022, 2022-2023 2023-2024	After the completion of this Course, students will be able to learn following:  CO-1. Students will be able to explain the term history and its importance. Students will be able to explain what is History and the importance of History.  CO-2. Identify the different types of primary and secondary sources.  CO-3. Students will be able to examine sources of History.  CO-4. Students will understand the Museum and Historical tourism.  CO-5. Analyze the work of Great historians.

Program Outcome: B. C. A.

Program		Program Outcome
B. C. A. (Three Years		After the completion of three years of Bachelor in Computer Application that is B. C. A. The students will be able to:
Bachelor's  Degree  Program)	PO-1:	Acquire basic knowledge of computer application, mathematical foundation and algorithm principles in the design of computer based systems.
	PO-2:	Develop problem analysis skills and knowledge and applying the same in real life.
	PO-3:	Investigate integrated solutions using emerging technologies.
	PO-4:	Apply professional ethics and cyber regulations in the realm of global technology.
		Ability to select modern computing tools, skills, and techniques necessary for innovative software solutions.
	PO-6:	Communicate Effectively with the computing community by being able to comprehend effective documentation and presentations.
	PO-7:	Identify opportunities, entrepreneurship vision and use of innovative ideas to create value and wealth for the betterment of the individual and society

## Program Specific Outcome: B. C. A.

Program		Program Outcome
B. C. A. (Three Years Bachelor's		After the completion of three years of Bachelor in Computer Application that is B. C. A. The students will be able to:
Degree Program)	PSO-1:	Integrate information technology and application of computers to business and office
	PSO-2:	Create a conductive environment in cultivating skills for thriving career and higher studies

PSO-3:	Practical Knowledge of SPSS for doing social science research
PSO-4:	Understanding the relevance of Date Base Management System in Business
PSO-5:	Comprehend computer programs in the allied areas like algorithms, system software, multimedia, web design and data analytics for efficient design of computer based systems.
PSO-6:	Development of quantitative aptitude, presentation and analytical skills of the learner
PSO-7:	Ability to work in team by strengthening group dynamics
PSO-8:	To explore technical comprehension in varied areas of computer application

# Course Outcome: B. C. A.

Sr.	Program	Name of the	СО	Course Outcome
<b>No.</b> 1			After the completion of this Course, students will be able to learn following:	
		2020-2021,	CO-1	To impart knowledge about the structure, components and functions of a computer system.
		CO-2	To understand working of basic I/O devices and memory devices.	
		CO-3	To Understand computer generation and Evaluation	
		CO-4	Familiarization with the terms like peripheral devices, networking, multimedia, internet, etc.	
		CO-5	Learn basic word processing skills with Microsoft Word, such as text input and formatting, editing, cut, copy and paste, spell check, margin and tab control, keyboard shortcuts, printing, as well as how to include some graphics such as pictures and	

				charts.
2	B. C. A. I	Logic Development		After the completion of this Course, students will be able to learn following:
		with C Programing 2019-2020,	CO-1	To learn structured and procedural programming and to improve C programming skills.
		2020-2021,	CO-2	To understand the basic structure of a C program.
		2021-2022	CO-3	To gain knowledge of various programming errors.
			CO-4	To enable the students to make flowchart and design an algorithm for a given problem.
			CO-5	Understanding a functional hierarchical code organization
3	B. C. A. I	English (Communicati on Skills) 2019-2020, 2020-2021,		After the completion of this Course, students will be able to learn following:
			CO-1	Acquire four basic skills: Listening, Speaking Reading and Writing
		2021-2022	CO-2	Use English language effectively in real life situations
			CO-3	Acquire the art of formal corresponding writing
			CO-4	Comprehend the terminologies from the discourse of computer
			CO-5	Learn presentation skills

4	B. C. A. I	A Basics of Mathematics		After the completion of this Course, students will be able to learn following:		
		2019-2020, 2020-2021, 2021-2022	2020-2021,		CO-1	Understand foundations of mathematics
				CO-2	Be able to perform basic computations in higher mathematics	
			CO-3	Be able to read and understand foundation algorithms and mathematics		
			CO-4	To write and understand basic proofs		
			CO-5	Develop problem solving skills		

5	B. C. A. I	Advanced Programming		After the completion of this Course, students will be able to learn following:
		in C 2019-2020, 2020-2021, 2021-2022	CO-1	Ability to design and develop Computer programs, analyzes, and interprets the concept of pointers, declarations, initialization, operations on pointers and their usage.
			CO-2	Utilize the best of the inbuilt functions for various input and output operations.
			CO-3	Implement problem solving skills using pointer concept of the programming languages.
			CO-4	Work efficiently with files using the programming languages.
			CO-5	To be able to develop C programs on compiler.
6	B. C. A. I Basics of Web Programming	Programming		After the completion of this Course, students will be able to learn following:
		2019-2020, 2020-2021, 2021-2022	CO-1	To understand the concept of HTML to develop their web development skill.
			CO-2	Create and use pivot tables and pivot charts.
			CO-3	Understanding the use of HTML tags.
			CO-4	Designing and Developing web pages using HTML.
			CO-5	Ability to Animate and Design the document.
7	B. C. A. I Software Engineering 2019-2020, 2020-2021, 2021-2022		After the completion of this Course, students will be able to learn following:	
		2020-2021,	CO-•	To inculcate in students different concepts of software engineering principles
		CO-• 2	To develop the skills necessary to design, develop and execute software projects.	
			CO-• 3	Select and implement different software development process models

			CO-•	Develop some basic level of software architecture/design
			CO-• 5	Implement software development efficiently and effectively
8	B. C. A. I	A Digital Electronics		After the completion of this Course, students will be able to learn following:
		2019-2020, 2020-2021, 2021-2022	CO-1	To acquire the basic knowledge of digital logic levels and application of knowledge to understand digital electronics circuits.
			CO-2	To prepare students to perform the analysis and design of various digital electronic circuits.
			CO-3	Have a thorough understanding of the fundamental concepts and techniques used in digital electronics.
			CO-4	To understand and examine the structure of various number systems and its application in digital design.
			CO-5	Ability to identify basic requirements for a design application and propose a cost-effective solution.
9	B. C. A. I	Statistical Method 2019-2020, 2020-2021, 2021-2022		After the completion of this Course, students will be able to learn following:
			CO-1	To impart knowledge of various statistical techniques.
			CO-2	Ability to apply various statistical techniques such as Measures of Central Tendency and Dispersion.
			CO-3	Understanding of relationship between variables using the method of Correlation and Trend Fit Analysis.
			CO-4	To develop students' understanding through laboratory activities to solve problems related to above stated concepts.

		CO-5	Skill to execute programs of various  Numerical Methods and Statistical  Techniques for solving mathematical problems.
B. C. A. II	Data structures		After the completion of this Course, students will be able to learn following:
	using 'C' - I & II 2020-2021, 2021-2022,	CO-1	Write programs that use arrays, records, linked structures, stacks, queues, trees, and graphs
	2022-2023	CO-2	Describe common applications for arrays, records, linked structures, stacks, queues and trees.
		CO-3	Demonstrate different methods for traversing trees
		CO-4	Compare alternative implementations of data structures with respect to performance.
		CO-5	Discuss the computational efficiency of the principal algorithms for sorting and searching.
B. C. A. II	Computer Networking- I & II		After the completion of this Course, students will be able to learn following:
	2020-2021,	CO-1	Explain the role of protocols in networking
	2021-2022, 2022-2023	CO-2	Administer and maintain a computer network.
	2022 2023	CO-3	Demonstrate basic understanding of network principles
		CO-4	Have a good understanding of the OSI  Reference Model and in particular have a good knowledge of Layers 1-3.
		CO-5	Demonstrate understanding of how computers communicate
B. C. A. II	DBMS 2020-2021,		After the completion of this Course, students will be able to learn following:
	2021-2022, 2022-2023	CO-1	Introduce basic concepts and major techniques

				in DBMS implementations.
			CO-2	Introduce research development ability in databases through technical survey and reading
			CO-3	Explain in detail DBMS architecture.
			CO-•	Explain the principles of concurrency control
			CO-• 5	Explain the principles of recovery management.
В.	C. A. II	OOP with C++ -I & II 2020-2021,		After the completion of this Course, students will be able to learn following:
	2020-2021, 2021-2022, 2022-2023	CO-1	Familiarization with a widely used programming concept – Object Oriented Programming.	
			CO-2	Develop logical thinking.
			CO-3	Skill to write codes in C++ by applying concept of OOP, such as Objects, Classes, Constructors, Inheritance etc., to solve mathematical or real-world problems.
			CO-4	Ability to isolate and fix common errors in C++programs
B.	B. C. A. II	Cyber Security 2020-2021, 2021-2022, 2022-2023		After the completion of this Course, students will be able to learn following:
			CO-1	Do research in the emerging areas of cryptography and network security
			CO-2	Solution of LPP by using graphical method

		CO-3	Methods of obtaining initial basic feasible solution (IBFS) of Transportation Problems
		CO-4	Learn mathematical models of Assignment Problems
		CO-5	Understand Linear programing problem
B. C. A. II	Software Testing 2020-2021,		After the completion of this Course, students will be able to learn following:

		2021-2022, 2022-2023	CO-1	Gain a broad understanding of the discipline of software Testing and Quality  Management.
			CO-• 2	Understand software test automation problems and solutions.
			CO-• 3	Comprehend the concepts related to Software Quality Attributes, Quality Planning, Software Quality Control and Software Quality Assurance.
			CO-4	Learn and demonstrate various software evaluation techniques
	B. C. A. II	Python 2020-2021,		After the completion of this Course, students will be able to learn following:
		2021-2022, 2022-2023	CO-1	Understand the features python program
		2022-2023	CO-2	Comprehend Performing Assignment and arithmetic operations
			CO-3	Learn Precedence of operators
			CO-4	Learn functions and modules of python
			CO-5	Learn formal parameters, actual and function parameters
	B. C. A. II	Operating System 2020-2021,		After the completion of this Course, students will be able to learn following:
		2021-2022, 2022-2023	CO-1	To understand the working of operating system as a resource manager.
			CO-2	To familiarize the students with Process and Memory management.
			CO-3	To describe the problem of process synchronization and its solution.
			CO-4	Ability to apply CPU scheduling algorithms to manage tasks.
			CO-5	Knowledge of methods of prevention and recovery from a system deadlock.

B. C. A. II	Advanced Web technology	After the completion of this Course, students will be able to learn following:
	2020-2021,	
	2021-2022,	
	2022-2023	

			CO-1	Create Format cells, rows, columns, and
			CO-1	entire worksheets
			CO-2	Understand benefits of PHP as a server side language
			CO-3	Learn object oriented programing in PHP
			CO-4	Create and use pivot tables and pivot charts. By learning the course, the students will be able to perform documentation, to perform accounting operations, to perform presentation skills
			CO-5	Work with forms and database with MySQL
	B. C. A. III Core Java 2021-2022, 2022-2023 2023-2024	2021-2022, 2022-2023		After the completion of this Course, students will be able to learn following:
			CO-• 1	Understand software design, implementation, and testing using Java
			CO-• 2	Understands fundamentals of basic java programming
			CO-• 3	Introduces object-oriented design techniques and problem solving.
		CO-4	Use an integrated development environment to write, compile, run, and test simple object-oriented Java programs	
			CO-• 5	Use a version control system to track source code in a project.
	B. C. A. III Visual Programing 2021-2022, 2022-2023 2023-2024	Programing		After the completion of this Course, students will be able to learn following:
		2022-2023	CO-1	To understand the concepts of windows Programming.

CO-2	To develop applications using Visual Basic.
CO-3	Creating dialogs, menus, windows and use Windows common dialogs
CO-4	Developing modular, reusable Visual Basic code and forms
CO-5	Demonstrate knowledge of programming terminology and how applied using Visual

B. C. A. III	B. C. A. III Linux and Shell Programing 2021-2022, 2022-2023 2023-2024		After the completion of this Course, students will be able to learn following:
		CO-1	Understand origin and development of linux
		CO-2	Understand Linux file System
		CO-3	Learn command, utilities and file management
		CO-4	Learn shell programing and process management
		CO-5	Learn Linux networking
B. C. A. III	Data Warehouse		After the completion of this Course, students will be able to learn following:
	and Data  Mining	CO-1	Understand features of data warehouse
	2021-2022, 2022-2023 2023-2024	CO-2	Develop the skill of Data cleaning, integration, transformation and reduction
		CO-3	Learn APRIOIRI algorithm, Partition algorithm, FP growth algorithm
B. C. A. III	B. C. A. III Advanced Java 2021-2022, 2022-2023 2023-2024		After the completion of this Course, students will be able to learn following:
		CO-1	Discuss the computational efficiency of the principal algorithms for sorting and searching.
		CO-2	Learn GGI, Servlet, API, session tracking mechanism
		CO-3	Comprehend advances of JSP
		CO-4	Know the basics of hibernate
		CO-5	Grasp the knowledge of spring modules

	i			
	B. C. A. III	Recent Trends		After the completion of this Course, students will
	in IT		be able to learn following:	
			-	
		2021-2022,	CO-1	Discuss the computational efficiency of the
		2022-2023		principal algorithms for sorting and searching.
		2023-2024		
			CO-2	To understand the nanotechnology in the discourse
				of computer
		CO-3	Explore computer with various fields with	
				new measures
				new measures
	B. C. A. III	Cryptography and Network Security		After the completion of this Course, students will
				be able to learn following:
	2021-2022, 2022-2023 2023-2024	_	CO-1	Understand design issues in Cryptography
		2022-2023 2023-2024 CO-2		and Network Security
			CO 2	The demand of the second of th
			CO-2	Understand security threats, security services
				and mechanisms to counter.
			CO-3	Administer and maintain a computer network.
			CO-•	Understand various System Security
			4	Threats – Intruders, Viruses & related
				Threats
				Tilleais

B. C. A.	.Net Technology		After the completion of this Course, students will be able to:
	2021-2022,	CO-1	Configure an asp.net application.
	2022-2023	CO-2	Develop a data driven web application.
2023-2024 CC	CO-3	Creating ASP.Net applications using standard .net controls.	
		CO-4	Design web applications using ASP.NET
		CO-5	Create database driven ASP.NET web applications and web services
